Sites on the NPL may be the subject of Hazardous Substance Response Trust Fund (Fund-) financed remedial actions. Any site deleted from the NPL remains eligible for Fund-financed remedial actions in the unlikely event that conditions at the site warrant such action. FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 65

RIN 3067-AC81

National Flood Insurance Program; Removal of Form

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Final rule.

SUMMARY: This rule removes appendix A to part 65, which contains the FEMA Standard Flood Hazard Determination form, and removes reference to the form and tells readers how to obtain copies of it. The form is used in the process of making, increasing, extending, renewing, selling, or transferring mortgages to ensure that buildings and mobile homes located in an identified Special Flood Hazard Area (SFHA) are covered by flood insurance. FEMA will publish notices of the availability of the form from time to time; the form is also available by fax-on-demand and on the Internet at FEMA's web site. Removal of the form from the CFR will enhance FEMA's ability to incorporate changes to the form outside of the rulemaking process, while continuing to provide full notice of availability of the form to the public and to affected parties.

EFFECTIVE DATE: This rule is effective on May 21, 1998.

FOR FURTHER INFORMATION CONTACT: Matthew B. Miller, P.E., Mitigation Directorate, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-3461, or by facsimile at (202) 646-4596 (not toll-free calls) for additional information.

SUPPLEMENTARY INFORMATION. As part of our implementation of the National Flood Insurance Reform Act of 1994, FEMA published a final rule at 60 FR 35276, July 6, 1995, to establish a standard form for determining whether

a building or mobile home is located in an SFHA, whether flood insurance is required, and whether Federal flood insurance is available. The federal entities for lending regulation published a final rule (60 FR 35286, July 6, 1995) requiring use of the form. Use of the form by federally regulated lenders became mandatory on January 2, 1996. The OMB number for the current form expires on April 30, 1998 but OMB has extended the expiration date for an additional 90 days.

During the two years that this form has been in use, many users have commented on the form asking FEMA to make minor changes and clarifications. By separate notice published today in the **Federal Register** we propose changes to the form and we request comments on the proposed changes from the public and from other Federal agencies.

This rule removes Appendix A to Part 65—Federal Emergency Management Agency, Standard Flood Hazard Determination Form and Instructions. The form will continue in use and will continue to be available by written request, by fax-on-demand, and through the Internet at <http://www.fema.gov/nfip/mpurfi.htm>. Removal of the form from the Code of Federal Regulations will enhance FEMA's ability to incorporate changes to the form outside of the rulemaking process, while continuing to provide full notice of the availability of the form to the public and to affected parties.

This rule also revises 44 CFR 65.16, Standard Flood Hazard Determination Form and instructions. The revision removes the reference to the form and instructions being found in Appendix A to Part 65 and tells how readers can obtain copies of the form and its accompanying instructions.

Executive Order 12866, Regulatory Planning and Review

This final rule is not a significant regulatory action within the meaning of § 2(f) of E.O. 12866 of September 30, 1993, 58 FR 51735, but attempts to adhere to the regulatory principles set forth in E.O. 12866. The rule has not been reviewed by the Office of Management and Budget under E.O. 12866.

Regulatory Flexibility Act.

The Director certifies that this rule is not a major rule under Executive Order 12291. It will not have significant impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, and is not expected (1) to affect adversely the availability of disaster assistance
