### Agency Information Collection Activities: Submission for OMB Review; Comment Request; NESHAP for Epoxy Resins and Non-Nylon Polyamide Resin

**AGENCY:** Environmental Protection  
Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the  
Paperwork Reduction Act (44 U.S.C.  
3501 *et seq.*), this document announces  
that the following Information  
Collection Request (ICR) has been  
forwarded to the Office of Management  
and Budget (OMB) for review and  
approval: National Emission Standards

for Hazardous Air Pollutants (NESHAP)  
for Epoxy Resins and Non-nylon  
Polyamide Production, OMB Control  
Number 2060-0290, expiration date July  
31, 1998. The ICR describes the nature  
of the information collection and its  
expected burden and cost; where  
appropriate, it includes the actual data  
collection instrument.

**DATES:** Comments must be submitted on  
or before June 25, 1998.

**FOR FURTHER INFORMATION CONTACT:** For  
a copy of the ICR, call Sandy Farmer at  
EPA, by phone at (202) 260-2740, by E-  
Mail at Farmer.Sandy@epamail.epa.gov  
or download off the Internet at <http://www.epa.gov/icr/icr.htm>, and refer to  
EPA ICR No. 1681.03.

#### SUPPLEMENTARY INFORMATION:

**Title:** NESHAP for Epoxy Resin and  
Non-nylon Polyamide Resin Production,  
Subpart W, OMB Control No. 2060-  
0290; EPA ICR No. 1681.03 expiring 07/  
31/98. This is a request for extension of  
a currently approved collection.

**Abstract:** The ICR contains  
recordkeeping and reporting  
requirements that are mandatory for  
compliance with 40 CFR part 63,  
subpart W, regulating hazardous air  
pollutants from process vents, storage  
vessels, wastewater systems and  
equipment leaks. The standards require  
recordkeeping and reporting to  
document process information related to  
the source's ability to comply with the  
standards. This information is used by  
the Agency to identify sources subject to  
the standards and to insure that the  
maximum achievable control  
technology is being properly applied.  
Section 112 of the Clean Air Act, as  
amended in 1990, requires that EPA  
establish standards to limit emissions of  
hazardous air pollutants (HAPs) from  
stationary sources. The sources subject  
to these provisions emit the HAPs  
epichlorohydrin, and in lesser amounts,  
hydrochloric acid and methanol. In the  
Administrator's judgment, hazardous air  
pollutant emissions in this industry  
cause or contribute to air pollution that  
may be reasonably expected to endanger  
public health or welfare. Respondents  
are owners or operators of new and  
existing facilities that manufacture  
polymers and resins from  
epichlorohydrin. Source categories  
include basic liquid epoxy resin (BLR)  
producers and producers of  
epichlorohydrin-modified non-nylon  
polyamide resins, also known as wet  
strength resins (WSR).

An agency may not conduct or  
sponsor, and a person is not required to  
respond to, a collection of information  
unless it displays a currently valid OMB

control number. The OMB control  
numbers for EPA's regulations are listed  
in 40 CFR part 9 and 48 CFR chapter 15.  
The **Federal Register** document  
required under 5 CFR 1320.8(d),  
soliciting comments on this collection  
of information was published on 12/02/  
97 (62 FR 63703); no comments were  
received.

**Burden Statement:** The annual public  
reporting and recordkeeping burden for  
this collection of information is  
estimated to average 156 hours per  
respondent. Burden means the total  
time, effort, or financial resources  
expended by persons to generate,  
maintain, retain, or disclose or provide  
information to or for a Federal agency.  
This includes the time needed to review  
instructions; develop, acquire, install,  
and utilize technology and systems for  
the purposes of collecting, validating,  
and verifying information, processing  
and maintaining information, and  
disclosing and providing information;  
adjust the existing ways to comply with  
any previously applicable instructions  
and requirements; train personnel to be  
able to respond to a collection of  
information; search data sources;  
complete and review the collection of  
information; and transmit or otherwise  
disclose the information.

#### Respondents/Affected Entities:

Owners or operators of new and existing  
facilities that manufacture polymers and  
resins from epichlorohydrin

**Estimated Number of Respondents:**  
13.

**Frequency of Response:** Semiannually  
(some quarterly).

**Estimated Total Annual Hour Burden:**  
4525 hours.

**Estimated Total Annualized Cost  
Burden:** \$9,000.

Send comments on the Agency's need  
for this information, the accuracy of the  
provided burden estimates, and any  
suggested methods for minimizing  
respondent burden, including through  
the use of automated collection  
techniques to the following addresses.  
Please refer to EPA ICR No. 1681.03 and  
OMB Control No. 2060-0290 in any  
correspondence.

## ENVIRONMENTAL PROTECTION AGENCY

[OPPTS-400130; FRL-5792-5]

### Public Meetings on the Toxics Release Inventory Reporting Form

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of public meetings.

**SUMMARY:** EPA will hold approximately nine public meetings to solicit comments relating to the Toxics Release Inventory (TRI) reporting form, the Form R. The purpose of the meetings is to obtain comments from stakeholders on ways to improve the type of right-to-know information available to communities and to help streamline right-to-know reporting to ease the paperwork burden for businesses affected by the requirements. The first five meetings were held in November 1997 and February and April 1998. This notice announces two upcoming meetings. Additional meeting dates will be announced through future **Federal Register** notices.

**DATES:** The meetings will take place:

1. Thursday, June 18, 1998, 9 a.m. to 12 p.m., at the Ramada Inn, 70 John Wesley Dobbs Avenue, Atlanta, GA 30303. Participants must register to speak by 5:00 p.m. on Thursday, June 11, 1998.

2. Wednesday, June 24, 1998, 9 a.m. to 12 p.m., at the Holiday Inn City Center, 1215 Wyandotte Street, Kansas City, MO 64105. Participants must register to speak by 5:00 p.m. on Wednesday, June 17, 1998.

**ADDRESSES:** Each comment must bear the docket control number "OPPTS-400130." All comments should be sent in triplicate to: OPPT Document Control Officer (7407), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 401 M St., SW., Rm. G-099, East Tower, Washington, DC 20460.

Comments and data may also be submitted electronically to: oppt.ncic@epamail.epa.gov. Follow the instructions under Unit II. of this document. No Confidential Business Information (CBI) should be submitted through e-mail.

All comments which contain information claimed as CBI must be clearly marked as such. Three sanitized copies of any comments containing

information claimed as CBI must also be submitted and will be placed in the public record for this action. Persons submitting information on any portion of which they believe is entitled to treatment as CBI by EPA must assert a business confidentiality claim in accordance with 40 CFR 2.203(b) for each such portion. This claim must be made at the time that the information is submitted to EPA. If a submitter does not assert a confidentiality claim at the time of submission, EPA will consider this as a waiver of any confidentiality claim and the information may be made available to the public by EPA without further notice to the submitter.

#### SUPPLEMENTARY INFORMATION:

### I. Background

EPA plans to hold approximately nine public meetings to solicit comments relating to the Toxics Release Inventory (TRI) reporting form, the Form R. The first five meetings took place in November 1997 and February and April 1998. The docket control number for the November meetings is "OPPTS-400117" and the docket control number for the February and April meetings is "OPPTS-400124." Comments presented at these meetings are available for review as described in Unit II. of this document.

The purpose of the meetings is to obtain comments from stakeholders on ways to improve the type of right-to-know information available to communities and to help streamline right-to-know reporting to ease the paperwork burden for businesses affected by the requirements. Topics for comment include the format of the Form R; nomenclature used in the Form R; opportunities for burden reduction in both the Form R and Form A; additional clarification of the elements in the Form R; and EPA's presentation of the data in public information documents. EPA would like to receive comments on these issues from interested parties for changes, modifications, deletions, and/or additions of data elements to the Form R and the Form A. These issues are outlined in greater detail in an issue paper available on the TRI Home Page at <http://www.epa.gov/opptintr/tri> under the heading "TRI Stakeholder Dialogue" and the subheading "TRI Public Meetings."

The sections of the Form R that EPA would like specific comment on are

sections 5, 6, and 8. In section 5, there have been a number of issues raised with regard to the definition of "release," particularly with respect to Class I underground injection wells and Resource Conservation and Recovery Act (RCRA) subtitle C landfills. Several commenters believe that EPA's interpretation of the Emergency Planning and Community Right-To-Know Act (EPCRA) definition of "release" will lead to the misperception that a reported EPCRA section 313 "release" necessarily results in an actual exposure of people or the environment to a toxic chemical. The Agency would like to hear suggestions on ways to collect and disseminate the data that are consistent with the Agency's interpretation of the EPCRA definition of "release" and would address the concerns raised regarding public misperception.

There have also been a number of issues raised with regard to the reporting of toxic chemicals in wastes in section 8 of the Form R. Section 8 collects information on waste managed at the facility whether or not the waste was generated at the reporting facility. Some individuals are concerned about public misperception of the data in section 8 because of the focus on the amount of waste managed at the facility and not the waste generated. EPA would like comments on ways to change section 8 of the Form R, which would continue to allow the user to assess wastes managed by the facility but would minimize the perception that the wastes reported in section 8 were generated by the reporting facility.

Individuals wishing to attend these meetings or participate via conference call must sign-up in advance in order to assure that all participants have an opportunity to speak. Depending on the number of individuals registered, oral presentations or statements will be limited to approximately 5 to 15 minutes. To register, contact Vicki Anderson at (202) 260-3544. For those who cannot travel to the public meeting location, there will be 10 conference call lines available on a first come, first served basis. When registering, give your name, organization, postal (and electronic, if any) mailing address, telephone, and fax number. If there is insufficient interest in any of the meetings, that meeting may be canceled. Individuals registered will be notified in the event a meeting is canceled. The Agency bears no responsibility for attendees' decision to purchase nonrefundable transportation tickets or accommodation reservations.
