DEPARTMENT OF AGRICULTURE**Rural Utilities Service****Cordova Electric Cooperative, Inc.; Adoption of Environmental Documents & Finding of No Significant Impact**

AGENCY: Rural Utilities Service, USDA.

ACTION: Adoption of Environmental Documents & Finding of No Significant Impact.

SUMMARY: Notice is hereby given that the Rural Utilities Service (RUS), pursuant to the National Environmental Policy Act of 1969, as amended, the Council on Environmental Quality Regulations (40 CFR Parts 1500-1508), and RUS Environmental Policies and Procedures (7 CFR Part 1794), has adopted the Environmental Assessment (EA) prepared by the Federal Energy Regulatory Commission (FERC) and made a Finding of No Significant Impact (FONSI) with respect to a hydroelectric project proposed by Cordova Electric Cooperative, Inc. (CEC), of Cordova, Alaska.

CEC is anticipated to request financing assistance from RUS for the project to be located on Power Creek, a tributary to Eyak Lake, near Cordova, in southeast Alaska.

The proposed project is a 6-megawatt (MW) hydroelectric generating plant and it consists primarily of (1) A diversion dam and intake structure located at stream mile 3.3; (2) a tunnel-and-pipeline power conduit conveying water approximately 5,900 feet; (3) a powerhouse containing 3 generating units with a total installed capacity of 6.0 MW; (4) a 7.2 mile-long buried transmission line; and (5) approximately 2.5 miles of access road. The project bypasses of about 1 mile of Power Creek. On January 6, 1997, Whitewater Engineering Corporation (WEC) of Bellingham, Washington, filed an application to FERC for a license for construction and operation of the Power Creek Project. WEC will transfer the license to CEC. CEC will be responsible for compliance with the terms and conditions of the license. WEC will construct the project for CEC.

The FONSI is based on the final EA issued by FERC. RUS concurs with the FERC determination that issuing a license would not be a major Federal action significantly impacting the quality of the human environment. In accordance with § 1794.83, RUS has adopted the final EA issued by FERC as its EA for the project.

FOR FURTHER INFORMATION CONTACT: Nurul Islam, Environmental Protection Specialist, RUS, Engineering and

Environmental Staff, Stop 1571, 1400 Independence Avenue, SW, Washington, DC 20250—1571, telephone (202)-720-1784.

SUPPLEMENTARY INFORMATION: In accordance with its regulations, FERC issued a notice of the application filed by WEC on March 3, 1997. Motions to intervene were filed by the National Marine Fisheries Service and the U.S. Fish and Wildlife Service and were granted. FERC issued a draft EA for public comment on October 8, 1997. All comments received were considered by FERC prior to issuing the final EA and the Finding of No Significant Impact (FONSI) on December 23, 1997. The license for the project was issued on December 24, 1997.

RUS has reviewed the final EA issued by FERC and determined that the proposed project will have no significant effect on wetlands, floodplains, important farmlands, threatened or endangered species, formally classified areas, cultural resources, and water quality. RUS has identified no other potential significant impact resulting from construction and operation of the proposed hydroelectric plant.

Alternatives examined for the proposed project included the proposed project, no action, and denial of license by FERC to build the project. RUS determined that the proposed project is an environmentally acceptable alternative that meets CEC's need with a minimum of adverse environmental impact. The project would allow CEC to construct and operate the project as a small but dependable source of renewable electrical energy and it would help meet the increasing demand for electric power in Cordova and avoid the need for an equivalent amount of fossil-fuel-fired electric generation and capacity, thereby continuing to help conserve these nonrenewable energy resources.

RUS has concluded that approval of RUS financing for the project would not constitute a major Federal action significantly affecting the quality of the human environment. Therefore, the preparation of an environmental impact statement is not necessary.

In accordance with its regulations, FERC issued a notice of the application submitted by WEC. FERC issued a draft EA for public comment on October 8, 1997. FERC has adequately considered all comments received from interested agencies and individuals in issuing the final EA. A license was issued to WEC to construct the Power Creek Project on December 24, 1997. The notice published by FERC meets the RUS

notice requirements contained in § 1794.62.

Copies of the FERC EA are available for review at, or may be obtained from RUS at the address provided above or from Cordova Electric Cooperative, Inc., P.O. Box 20, Cordova, Alaska 99574, telephone (907) 424-5555 during normal business hours.
