Proposed Project: Voluntary Customer Satisfaction Surveys to Implement Executive Order 12862 in the Substance Abuse and Mental Health Services Administration (SAMHSA)—New—Executive Order 12862 directs agencies that “provide significant services directly to the public” to “survey customers to determine the kind and quality of services they want and their level of satisfaction with existing services.” SAMHSA provides significant services directly to the public through a range of mechanisms, including publications, technical assistance and web sites. Proposed Project: GPRA Client Variables for the Center for Substance Abuse Treatment (CSAT)—NEW—The mission of the Substance Abuse and

Mental Health Services Administration's (SAMHSA) Center for Substance Abuse Treatment (CSAT) is to improve the effectiveness and efficiency of substance abuse treatment services across the United States. All of CSAT's activities are designed to ultimately reduce the gap in the availability of substance abuse treatment and improve the effectiveness and efficiency of those treatments. Data will be collected from four sets of CSAT-funded Knowledge Development and Application (KDA) projects where client status and behavior are assessed at intake, during treatment, and post-treatment. CSAT-funded projects will be required to submit this data as a contingency for their award. The analysis of the data will also help determine whether the goal of reducing health and social costs of drug use to the public is being achieved.

The data collection activity will meet the reporting requirements of the Government Performance Review Act (GPRA) (Public Law 103-62) requirements by allowing SAMHSA to
