

enforcement agency heads and precinct/district commanders that have received grant funding from the COPS Office will be surveyed regarding the nature and extent of community policing implementation in their agencies and precincts/districts.

To uphold its mandate, the COPS Office has awarded hiring and redeployment grants, innovative grants, and training grants to over 10,000 law enforcement agencies nationwide. While the COPS Office has made significant strides in funding officers it is important to consider the 1994 Crime Bill and the emergence of COPS in a long-term perspective. The proposed survey aims to answer questions regarding the nature and extent of community policing implementation across the United States.

COPS data and prior national surveys of community policing implementation are limited in their capacity to describe how extensive community policing implementation is. In addition, existing data sets do not permit exploration of the likelihood that implementation of community policing varies within jurisdictions, particularly large ones that are decentralized to precinct or district levels. The National Survey of Police Executives, District Commanders and Agencies will be able to capture variations within a jurisdiction.

Surveys will incorporate elements that the COPS Office has identified as key components of community policing and will draw upon prior surveys, other literature, and prior knowledge to develop a comprehensive listing of community policing elements. Questions will provide more precise information about the extent to which each element is implemented.
