14 CFR Part 71

[Airspace Docket No. 98-ASW-36]

Revision of Class E Airspace; Morgan City, LA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; confirmation of effective date.

SUMMARY: This notice confirms the effective date of a direct final rule which revises Class E airspace at Morgan City, LA.

EFFECTIVE DATE: The direct final rule published at 63 FR 36843 is effective 0901 UTC, October 8, 1998.

FOR FURTHER INFORMATION CONTACT:

Donald J. Day, Airspace Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, Fort Worth, TX 76193-0520, telephone: 817-222-5593.

SUPPLEMENTARY INFORMATION: The FAA published this direct final rule with a request for comments in the **Federal Register** on July 8, 1998 (63 FR 36843). The FAA uses the direct final rulemaking procedure for a non-controversial rule where the FAA believes that there will be no adverse public comment. This direct final rule advised the public that no adverse comments were anticipated, and that unless a written adverse comment, or a written notice of intent to submit such an adverse comment, were received within the comment period, the regulation would become effective on October 8, 1998. No adverse comments were received, and thus this action confirms that this direct final rule will be effective on that date.

Issued in Fort Worth, TX, on August 27, 1998.

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 98-ACE-35]

Amendment to Class E Airspace Goodland, KS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: This action amends Class E airspace area at Goodland Renner Field-Goodland Municipal Airport, Goodland, KS. A review of the Class E airspace for Goodland Renner Field-Goodland Municipal Airport indicates it does not comply with the criteria for 700 feet Above Ground Level (AGL) airspace required for diverse departures as specified in FAA Order 7400.2D. The area is enlarged to conform to the criteria of FAA Order 7400.2D.

In addition, the Class E airspace areas are revised to indicate a minor revision to the Airport Reference Point (ARP) coordinates, and are included in this document. The Goodland Renner Field-Goodland Municipal Airport Localizer and coordinates are included in the

Class E airspace designation. The intended effect of this rule is to provide additional controlled Class E airspace for aircraft operating under Instrument Flight Rules (IFR), comply with the criteria of FAA Order 7400.2D, revise the ARP coordinates, and add the Goodland Renner Field-Goodland Municipal Airport Localizer and coordinates.

DATES: Effective date: 0901 UTC, December 3, 1998.

Comments for inclusion in the Rules Docket must be received on or before October 5, 1998.

ADDRESSES: Send comments regarding the rule in triplicate to: Manager, Airspace Branch, Air Traffic Division, ACE-520, Federal Aviation Administration, Docket Number 98-ACE-35, 601 East 12th Street, Kansas City, MO 64106.

The official docket may be examined in the Office of the Regional Counsel for the Central Region at the same address between 9:00 a.m. and 3:00 p.m., Monday through Friday, except Federal holidays.

An informal docket may also be examined during normal business hours in the Air Traffic Division at the same address listed above.

FOR FURTHER INFORMATION CONTACT: Kathy Randolph, Air Traffic Division, Airspace Branch, ACE-520C, Federal Aviation Administration, 601 East 12th Street, Kansas City, MO 64106; telephone: (816) 426-3408.

SUPPLEMENTARY INFORMATION: This amendment to 14 CFR 71 revises the Class E airspace at Goodland, KS. A review of the Class E airspace areas for Goodland Renner Field-Goodland Municipal Airport indicates it does not meet the criteria for 700 feet AGL airspace required for diverse departures as specified in FAA Order 7400.2D. The criteria in FAA Order 7400.2D for an aircraft to reach 1200 feet AGL is based on a standard climb gradient of 200 feet per mile plus the distance from the Airport Reference Point (ARP) to the end of the outermost runway. Any fractional part of a mile is converted to the next higher tenth of a mile.

In addition, the Class E airspace areas are amended to indicate the revised ARP coordinates. The Goodland Renner Field-Goodland Municipal Airport Localizer and coordinates are included in the Class E airspace designation. The amendment at Goodland Renner Field-Goodland Municipal Airport, KS, will provide additional controlled airspace for aircraft operating under IFR, comply with the criteria of FAA Order 7400.2D, revise the ARP coordinates and add the Goodland Renner Field-Goodland Municipal Airport Localizer and
