#### Proposed Information Collection Activity; Comment Request

##### Proposed Project

*Title:* National Survey of Child and Adolescent Well-Being.

*OMB No.:* New.

*Description:* Title V, Section 429A, in the amendments to Title IV-B of the Social Security Act authorizes the Secretary of Health and Human Services to conduct a "national random sample study of child welfare". The NSCAW fulfills the intent of that legislation, and responds to a growing need for better understanding of the child welfare system and the children and families

who come into contact with it. The survey will collect data through interview and assessment with a national sample of 6700 children along with their parents, caregivers (such as foster parents), teachers, and caseworkers and other agency personnel to assess the characteristics of children and families who come into contact with the child welfare system, the services they need and receive, and the outcomes for those children and families. Information will be collected from all respondents at the time the child enters the child welfare system, with three subsequent annual followups. In addition, some information will be collected from parents or caregivers and caseworkers midway between the annual collections. The information will provide national estimates on characteristics of children and families in the child welfare system, and will be used to guide child welfare policy and practice, as well as to provide new insights into the antecedents and consequences of child maltreatment.

*Respondents:* Individuals or Households.
