#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The Patent and Trademark Office (PTO) has established customer-focused goals and objectives in each business area. The Patent business area has established the following goal: Exceed Our Customer's Quality Expectations Through the Competencies and Empowerment of Our Employees. In addition, based on customer feedback, the following four objectives have been identified as key drivers of overall customer satisfaction: (1) direct the customer promptly to the proper office or person; (2) return telephone calls within one business day, or provide

another contact; (3) set forth clearly in written communications the technical, procedural, and legal position of the examiner; and (4) conduct a thorough search of all relevant information.

An internal review program, called an In-Process Review, has been established to focus on performance against the last two standards. To ensure that the internal reviews accurately reflect customer perceptions of quality, the PTO staff will conduct telephone interviews with customers following the same In-Process Review. The results from this review will enable the Patent business area to identify any discrepancies between the internal and customer perceptions of quality. In addition, this information will be used to develop training to address specific weaknesses.

The telephone surveys will be based on the patent applications reviewed by

the PTO's Quality Assurance Specialists and Supervisory Patent Examiners. The PTO is drawing the survey sample from a respondent pool of 2,280 applications reviewed each year by the Quality Assurance Specialists and Supervisory Patent Examiners. This breaks down to 380 applications from each of the six Technology Centers that review patent applications. The PTO estimates that from this total of 380 applications, they will be able to successfully review 80 from each of the six technology centers. The PTO estimates that it will have a random sample of 480 applications.

## II. Method of Collection

The survey will be conducted by telephone. A random sample is used to collect the data. Statistical methods will be followed.

## III. Data

OMB Number: None.

Form Number: There are no forms associated.

Type of Review: New collection.

Affected Public: Individuals or households, businesses or other for-profit, not-for-profit institutions, farms, state, local or tribal governments, and the Federal Government.

Estimated Number of Respondents: 480 responses per year.

Estimated Time Per Response: It is estimated to take approximately 30 minutes to complete the telephone survey.

Estimated Total Annual Respondent Burden Hours: 240 hours per year.

Estimated Total Annual Respondent Cost Burden: \$42,000 per year.

Title of form	Estimated time for response (minutes)	Estimated annual burden hours	Estimated annual responses
Patent and Trademark Office In-Process Telephone Survey .....	30	240	480
Totals .....	.....	240	480

**Note:** The PTO is pulling a random sample of 480 applications as part of the survey effort. Out of this sample, the PTO estimates that they will receive 408 completed surveys, or that they will receive 85% of the sample. This rate is based on previous telephone interviews that resulted in response rates ranging from 80–95%. Depending on the number of surveys completed, the burden to the public will range from 204 to 240 hours.

## IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, e.g., the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized or included in the request for OMB approval of this information collection; they will also become a matter of public record.
