ENVIRONMENTAL PROTECTION AGENCY

[OPP-30000/60B; FRL-6040-2]

Notice of Receipt of Request to Amend Terms and Conditions of Cyanazine Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Dupont Agricultural Products ("DuPont") and Griffin Corporation ("Griffin") have requested amendment to the terms and conditions of their registrations and cancellation orders for the cyanazine registrations. The registrations are currently being phased out according to the terms and conditions proposed by Dupont and subsequently agreed to by Griffin and accepted by EPA. These terms and conditions were the basis for concluding the Special Review of cyanazine. This notice announces EPA's proposed decision to grant the registrants' request to further amend the terms and conditions of their cyanazine registrations and voluntary cancellation orders to reflect a maximum use rate of 3.0 lb/acre in 1999, instead of 1.0 lb/acre, as previously agreed. The adjustment in the seasonal use rate for 1999 is in response to atypical weather patterns during the 1998 growing season that resulted in less cyanazine being used than originally anticipated. EPA's proposed decision to grant this request is subject to 40 CFR 154.35 because the agreement to phase out cyanazine usage and ultimately cancel the registrations was the basis for the Agency's conclusion of the Special Review. EPA proposes to grant this request because it is a proper response to special weather conditions, it will not disturb the original cancellation order that phases out cyanazine use by 2002 since there will be no increase in use over the use allowed with the original existing stocks provisions, and the balance between risks and benefits of cyanazine will be maintained.

DATES: Comments must be received on or before November 20, 1998.

SUPPLEMENTARY INFORMATION:

I. Background

Cyanazine is the common name for [2-((4-chloro-6-(ethylamino)-s-triazine-2-yl)amino)-2-methylpropionitrile], an herbicide.

A Special Review of cyanazine was initiated in November 1994 (58 FR 60412, November 23, 1994) (FRL-4919-5), based on cancer risk concerns to humans. In August 1995, Dupont voluntarily proposed to amend its cyanazine registrations to effectively phase out all use of cyanazine products by December 31, 2002. Dupont modified the labels of cyanazine formulated end use products released for shipment by the registrant after July 25, 1996, to specify the maximum application rates during the phase out and to inform the public of the existing stocks provisions.
