Financial Assistance for Research and Development Projects in the Gulf of Mexico and Off the U.S. South Atlantic Coastal States; Marine Fisheries Initiative (MARFIN)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice.

SUMMARY: Subject to the availability of funds, NMFS will continue MARFIN to assist persons in carrying out research and development projects that optimize the use of fisheries in the Gulf of Mexico and off the South Atlantic States of

North Carolina, South Carolina, Georgia, and Florida involving the U.S. fishing industry (recreational and commercial), including fishery biology, resource assessment, socio-economic assessment, management and conservation, selected harvesting methods, and fish handling and processing. NMFS issues this notice describing the conditions under which applications will be accepted and selected for funding. Areas of emphasis for MARFIN were formulated from recommendations received from non-Federal scientific and technical experts and from NMFS research and operations officials.

DATES: Applications for funding under this program will be accepted between October 28, 1998, and 5 p.m. eastern daylight time on December 28, 1998. Applications received after that time will not be considered for funding. No facsimile applications will be accepted.

ADDRESSES: Send applications to: Ellie Francisco Roche, Chief, State/Federal Liaison Office, Southeast Regional Office, NMFS, 9721 Executive Center Drive, N., St. Petersburg, FL 33702.

FOR FURTHER INFORMATION CONTACT: Ellie Francisco Roche, 727-570-5324.

SUPPLEMENTARY INFORMATION:

I. Authority

The Secretary of Commerce (Secretary) is authorized under 15 U.S.C. 713c-3(d) to carry out a national program of research and development addressed to such aspects of U.S. fisheries as harvesting, processing, marketing and associated infrastructures, if not adequately covered by projects assisted under 15 U.S.C. 713c-3(c), as the Secretary deems appropriate.

II. Catalog of Federal Domestic Assistance

This program is described in the "Catalog of Federal Domestic Assistance" (CFDA) under program number 11.433, Marine Fisheries Initiative.

III. Program Description

MARFIN is a competitive Federal assistance program that promotes and endorses programs that seek to optimize research and development benefits from U.S. marine fishery resources through cooperative efforts that involve the best research and management talents to accomplish priority activities. Projects funded under MARFIN are focused into cooperative efforts that provide answers for fishery needs covered by the NMFS Strategic Plan, available from the Southeast Regional Office (see **ADDRESSES**), particularly those goals

relating to rebuilding overfished marine fisheries, maintaining currently productive fisheries, and integrating conservation of protected species and fisheries management.

Emphasis will be placed upon funding projects that have the greatest probability of recovering, maintaining, improving, or developing fisheries; improving the understanding of factors affecting recruitment success; and/or generating increased values and recreational opportunities from fisheries. Projects will be evaluated as to the likelihood of achieving these benefits through both short- and long-term research efforts, with consideration given to the magnitude of the eventual economic or social benefits that may be realized. Short-term projects that may yield more immediate benefits and projects yielding longer-term benefits will receive equal consideration.

IV. Funding Availability

This solicitation announces that funding of approximately \$1.10 million may be available in fiscal year (FY) 1999. MARFIN financial assistance started in FY 1986 for financial assistance to conduct research for fishery resources in the Gulf of Mexico and off the South Atlantic states of North Carolina, South Carolina, Georgia, and Florida. There is no guarantee that sufficient funds will be available to make awards for all approved projects.

Project proposals accepted for funding for a project period over 1 year that include multiple project components and severable tasks to be funded during each budget period will not compete for funding in subsequent budget periods within the approved project period. However, funding for subsequent project components is contingent upon the availability of funds from Congress and satisfactory performance and will be at the sole discretion of the agency. Publication of this notice does not obligate NMFS to award any specific cooperative agreement or to commit all or any parts of the available funds.

V. Matching Requirements

Applications must reflect the total budget necessary to accomplish the project, including contributions and/or donations. Cost-sharing is not required for the MARFIN program. However, cost-sharing is encouraged and, in case of a tie in considering proposals for funding, cost-sharing may affect the final decision. The allowability of all cost-sharing will be determined on the basis of guidance provided in applicable Federal cost principles. If an applicant chooses to cost-share, and if that application is selected for funding, the
