#### City of Albany, OR; Notice of Availability of Final Environmental Assessment

October 23, 1998.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing has reviewed the application for an original license for

the City of Albany, Oregon Hydroelectric Project. The project is located on the South Santiam River, Albany-Santiam canal, and Calapooia River in the cities of Lebanon and Albany, Linn County, Oregon.

On March 24, 1998, the Commission staff issued a draft environmental assessment for the project and requested that comments be filed with the Commission within 30 days. Comments were filed by two entities and are addressed in the final environmental assessment (FEA) for the project.

The FEA contains the staff's analysis of the potential environmental impacts of the project and has concluded that licensing the project, with appropriate environmental protective measures, would not be a major federal action significantly affecting the quality of the human environment.

Copies of the FEA are available for review in the Public Reference Room, Room 2A, of the Commission's offices at 888 First Street, N.E., Washington, D.C. 20426.
