

**DEPARTMENT OF ENERGY****Federal Energy Regulatory Commission**

[Docket No. EG99-6-000]

**Bear Swamp I LLC; Notice of Amendment to Application for Commission Determination of Exempt Wholesale Generator Status**

October 26, 1998.

Take notice that on October 23, 1998, Bear Swamp I LLC (Applicant) tendered for filing with the Federal Energy Regulatory Commission an Amendment to Application for Commission Determination of Exempt Wholesale Generator Status pursuant to Part 365 of the Commission's Regulations. The application was filed in the above-referenced docket number on October 1, 1998.

Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions and protests should be filed on or before November 6, 1998. Protests will be considered by the Commission to determine the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

**David P. Boergers,**  
Secretary.

#### ENVIRONMENTAL PROTECTION AGENCY

[FRL-6182-5]

#### Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) or Superfund, Section 104—Announcement of Proposal Deadline for the Competition for the 1999 National Brownfields Assessment Demonstration Pilots

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of proposal deadlines, revised guidelines.

**SUMMARY:** The United States Environmental Protection Agency (EPA) will begin to accept proposals for the National Brownfields Assessment Pilots on October 30, 1998. The brownfields assessment pilots (each funded up to \$200,000 over two years) test cleanup and redevelopment planning models, direct special efforts toward removing regulatory barriers without sacrificing protectiveness, and facilitate coordinated environmental cleanup and redevelopment efforts at the federal, state, and local levels. EPA expects to select up to 100 additional National brownfields assessment pilots by May 1999. Applications will be accepted on a "rolling submissions" schedule. The deadlines for new applications for the 1999 assessment pilots are December 11, 1998, and March 22, 1999. Applications postmarked after December 11, 1998, will be considered in the second round of competition. Previously unsuccessful applicants are advised that they must revise and resubmit their applications.

The National brownfields assessment pilots are administered on a competitive basis. To ensure a fair selection process, evaluation panels consisting of EPA Regional and Headquarters staff and other federal agency representatives will assess how well the proposals meet the selection criteria outlined in the newly revised application booklet *The Brownfields Economic Redevelopment Initiative: Proposal Guidelines for Brownfields Assessment Demonstration Pilots* (October 1998).

**DATES:** This action is effective as of October 30, 1998, and expires on March 22, 1999. All proposals must be postmarked or sent to EPA via registered or tracked mail by the expiration dates cited above. Applications postmarked after December 11, 1998, will be considered in the second round of competition.

**ADDRESSES:** Application booklets can be obtained by calling the Superfund Hotline at the following numbers:

Washington, DC Metro Area at 703-412-9810; Outside Washington, DC Metro at 1-800-424-9346; TDD for the Hearing Impaired at 1-800-553-7672.

Copies of the Booklet are available via the Internet: <http://www.epa.gov/brownfields/>

**FOR FURTHER INFORMATION CONTACT:** The Superfund Hotline, 800-424-9346.

**SUPPLEMENTARY INFORMATION:** As a part of the Environmental Protection Agency's (EPA) Brownfields Economic Redevelopment Initiative, the Brownfields Assessment Demonstration Pilots are designed to empower States, communities, and other stakeholders in economic redevelopment to work together in a timely manner to prevent, assess, safely cleanup and promote the sustainable reuse of brownfields. EPA has awarded cooperative agreements to States, cities, towns, counties and Tribes for demonstration pilots that test brownfields assessment models, direct special efforts toward removing regulatory barriers without sacrificing protectiveness, and facilitate coordinated public and private efforts at the Federal, State and local levels. To date, the Agency has funded 226 Brownfields Assessment Pilots. Of those pilots, 169 are National Pilots selected under criteria developed by EPA Headquarters and 57 are Regional Pilots selected by EPA Regions under criteria developed by their offices.

EPA's goal is to select a broad array of assessment pilots that will serve as models for other communities across the nation. EPA seeks to identify applications that demonstrate the integration or linking of brownfields assessment pilots with other federal, state, tribal, and local sustainable development, community revitalization, and pollution prevention programs. Special consideration will be given to Empowerment Zones and Enterprise Communities (EZ/ECs), communities with populations of under 100,000, and federally recognized Indian tribes. These pilots focus on EPA's primary mission—protecting human health and the environment. However, it is an essential piece of the nation's overall community revitalization efforts. EPA works closely with other federal agencies through the Interagency Working Group on Brownfields, and builds relationships with other stakeholders on the national and local levels to develop coordinated approaches for community revitalization.

Funding for the brownfields assessment pilots is authorized under section 104(d)(1) of the Comprehensive Environmental Response,
