D. **RECORDS TO BE MATCHED:** The systems of records maintained by the respective agencies from which records will be disclosed for the purpose of this computer match are as follows:

HUD will use personal data from the record system identified as HUD/DEPT 2, entitled 'Accounting Records' last published in the **Federal Register** on November 25, 1994, at 59 FR 60651.

DOD will use personal data from the record system identified as S322.11 DMDC, entitled 'Federal Creditor Agency Debt Collection Data Base,' last published in the **Federal Register** at June 25, 1996, at 61 FR 32779.

Sections 5 and 10 of the Debt Collection Act of 1982 authorize agencies to disclose information about debtors in order to effect salary or administrative offsets. Agencies must publish routine uses pursuant to subsection (b)(3) of the Privacy Act for those systems of records from which they intend to disclose this information. Sections 5 and 10 of the Debt Collection Act will comprise the necessary authority to meet the Privacy Act's 'compatibility' condition. The systems of records described above contain an appropriate routine use disclosure between the agencies of the information proposed in the match. The routine use provisions are compatible with the purpose for which the information was collected.

E. **DESCRIPTION OF COMPUTER MATCHING PROGRAM:** HUD, as the source agency, will provide DMDC with a electronic file which contains the names of delinquent debtors in programs HUD administers. Upon receipt of the electronic file of debtor accounts, DMDC will perform a computer match using all nine digits of the SSN of the HUD file against a DMDC computer database. The DMDC database, established under an interagency agreement between DOD, OPM, OMB, and the Department of the Treasury, consists of employment records of non-postal Federal employees

and military members, active, and retired. Matching records ('hits'), based on the SSN, will produce the member's name, service or agency, category of employee, and current work or home address. The hits or matches will be furnished to HUD. HUD is responsible for verifying and determining that the data on the DMDC reply tape file are consistent with HUD's source file and for resolving any discrepancies or inconsistencies on an individual basis. HUD will also be responsible for making final determinations as to positive identification, amount of indebtedness and recovery efforts as a result of the match.

The electronic file provided by HUD will contain data elements of the debtor's name, SSN, internal account numbers and the total amount owed for each debtor on approximately 44,779 delinquent debtors, (42,960 in Title I, 1,665 in Generic Debt and 154 in Department Claims.

The DMDC computer database file contains approximately 10 million records of active duty and retired military members, including the Reserve and Guard, and the OPM government wide non-postal Federal civilian records of current and retired Federal employees.

DMDC will match the SSN on the HUD file by computer against the DMDC database. Matching records, hits based on SSN's will produce data elements of the member's name, SSN, service or agency, and current work or home address.

F. **INCLUSIVE DATES OF THE MATCHING PROGRAM:** This computer matching program is subject to review by Congress and the Office of Management and Budget. If no objections are raised by either, and the mandatory 30 day public notice period for comment has expired, then this computer matching program becomes effective. By agreement between HUD and DMDC, the matching program will be in effect and continue for 18 months with an option to renew for 12 additional months unless one of the parties to the agreement advises the other by written request to terminate or modify the agreement.

G. **ADDRESS FOR RECEIPT OF PUBLIC COMMENTS OR INQUIRIES:** Acting Director, Defense Privacy Office, 1941 Jefferson Davis Highway, Room 920, Arlington, VA 22202-4502. [FR Doc. 98-2397 Filed 2-6-98; 8:45 am]

Department of the Navy

Redesignation From Environmental Impact Statement (EIS) to Environmental Assessment (EA) for Disposal and Reuse of Surplus Property at Naval Support Activity (Formerly Naval Air Station (NAS)) Memphis, Millington, Tennessee

AGENCY: Department of the Navy, DoD.

ACTION: Notice.

SUMMARY: The Department of the Navy gives notice that an Environmental Assessment (EA) has been prepared, and an Environmental Impact Statement (EIS) is not required, for the disposal and reuse of surplus property at Naval Support Activity (NSA) (formerly Naval Air Station (NAS)) Memphis, Millington, Tennessee.

ADDRESSES: Requests for copies of the Review EA are to be directed to Mr. Darrell Molzan (Code 064DM), Southern Division, Naval Facilities Engineering Command, P.O. Box 190010, North Charleston, SC 29419-9010, FAX (803) 820-7472.

FOR FURTHER INFORMATION CONTACT: Mr. Darrell Molzan, (803) 820-5796.

SUPPLEMENTAL INFORMATION: Pursuant to the Council on Environmental Quality regulations (40 CFR parts 1500-1508) implementing the procedural provisions of the National Environmental Policy Act (NEPA), the Department of the Navy gives notice that an EA has been prepared for the disposal of NAS Memphis and the subsequent reuse of those surplus property.

A Notice of Intent (NOI) to prepare an EIS was published in **Federal Register** on June 9, 1994. A public scoping meeting for the proposed project was held on June 28, 1994, at the Baker Community Center, 7942 Church Street, Millington, Tennessee. This meeting was advertised in Millington area newspapers.

In accordance with recommendations of the 1993 Base Closure and Realignment Commission, the Navy has realigned the former NAS Memphis. As part of the realignment, air operations conducted at the former air station have been either disestablished or transferred to other naval facilities. The proposed action involves the disposal of the majority of the land, buildings, and infrastructure associated with the air operations on the northside of NSA Memphis including runways, taxi ways, hangers, etc. Approximately 1,900 acres will be declared excess. The EA will evaluate alternative reuse concepts of the property, including a "no action"

alternative, which would be retention of the property by the Navy in caretaker status. However, due to provisions found in the Base Realignment and Closure Act, selection of the "no action" alternative would be considered impractical for the Navy to implement.

Major environmental issues that will be addressed in the EA include, but are not limited to, air quality, water quality, wetlands, endangered species, cultural resources, and socioeconomic impacts of the reasonably foreseeable reuse of the property.

Federal, state and local agencies, and individuals interested in obtaining a copy of the Review EA should contact Mr. Darrell Molzan (Code 064DM), Southern Division, Naval Facilities Engineering Command, P.O. Box 190010, North Charleston, SC 29419-9010, FAX (803) 820-7472.

Dated: February 3, 1998.

Michael I. Quinn,

*Commander, Judge Advocate General's Corps,
U.S. Navy, Federal Register Liaison Officer.*

AGENCY: Department of the Navy, DoD.

ACTION: Notice.

SUMMARY: The Department of the Navy gives notice that an Environmental Assessment (EA) has been prepared, and an Environmental Impact Statement (EIS) is not required, for the disposal and reuse of Naval Air Warfare Center, Aircraft Division (NAWCAD), Trenton, Ewing Township, New Jersey.

ADDRESSES: Requests for copies of the Review EA are to be directed to Mr. Bob Ostermueller (Code 202), Northern Division, Naval Facilities Engineering Command, 10 Industrial Highway, MSC 82, Lester, PA 19113, FAX (610) 595-0778.

FOR FURTHER INFORMATION CONTACT: Mr. Bob Ostermueller, (610) 595-0759.

SUPPLEMENTAL INFORMATION: Pursuant to the Council on Environmental Quality regulations (40 CFR parts 1500-1508) implementing the procedural provisions of the National Environmental Policy Act (NEPA), the Department of the Navy gives notice that an EA has been prepared for the disposal of NAWCAD

Trenton and the subsequent reuse of the property.

A Notice of Intent (NOI) to prepare an EIS was published in **Federal Register** on March 17, 1997 (62 FR 12622). A public scoping meeting for the proposed project was held on April 2, 1997, at the Ewing Township Municipal Building, 2 Municipal Drive, Ewing Township, New Jersey.

In 1993, the Congressional Committee on Base Realignment and Closure (BRAC) recommended the closure of NAWCAD Trenton and the subsequent relocation of functions, personnel, equipment, and support to the Arnold Engineering Center, Tullahoma, Tennessee and the Naval Air Warfare Center Patuxent River, Maryland. This recommendation was approved by President Clinton and accepted by the One Hundred Third Congress in 1993. The BRAC legislation also identified the requirements for compliance with NEPA stating that the provisions of NEPA shall apply during the process of property disposal. The EA will evaluate environmental impacts of alternative reuse concepts of the property under current or other zoning classifications, including a "no action" alternative, which would be retention of the property by the Navy in caretaker status.

Major environmental issues that will be addressed in the EA include, but are not limited to, air quality, water quality, wetlands, endangered species, cultural and historical resources, and socioeconomic impacts of the reasonably foreseeable reuse of the property.

Federal, state and local agencies, and individuals interested in obtaining a copy of the Review EA should contact Mr. Bob Ostermueller (Code 202), Northern Division, Naval Facilities Engineering Command, 10 Industrial Highway, MSC 82, Lester, PA 19113, FAX (610) 595-0778.
