

The Committee of Scientists was chartered to provide scientific and technical advice to the Secretary of Agriculture and the Chief of the Forest Service on improvements that can be made to the National Forest System land and resource management planning process (62 FR 43691; August 15, 1997). Notice of the names of the appointed Committee members was published December 16, 1997 (62 FR 65795).

Dated: December 18, 1998.

Randle G. Phillips,

Acting Deputy Chief for National Forest System.

[Docket No. 981211304-8304-01]

Annual Survey of Communication Services

AGENCY: Bureau of the Census, Commerce.

ACTION: Notice of Determination.

SUMMARY: In accordance with Title 13, United States Code, Sections 182, 224, and 225, I have determined that 1998 total operating revenue and expenses are needed for the telephone, radio and television broadcasting, cable and pay television, and other communication services industries to provide a sound statistical basis for the formation of policy by various governmental agencies, and that these data also apply to a variety of public and business needs. These data are not publicly available from nongovernment or other governmental sources.

FOR FURTHER INFORMATION CONTACT: Ruth A. Bramblett, Chief, Current Services Branch, Service Sector Statistics Division, on (301) 457-2766.

SUPPLEMENTARY INFORMATION: The Census Bureau is authorized to conduct surveys necessary to furnish current data on subjects covered by the major censuses authorized by Title 13, United States Code. This survey will provide continuing and timely national statistical data on communication services for the period between economic censuses. The next economic census is in 2002. This survey will yield 1998 estimates for the aforementioned industries. The data collected in this survey will be within the general scope and nature of those inquiries covered in the economic censuses.

The Census Bureau needs reports from only a limited sample of

communication firms in the United States. The probability of a firm's selection is based on revenue size (estimated from payroll). The sample will provide, with measurable reliability, national level statistics on total operating revenue and expenses for these industries. We will mail report forms to the firms covered by this survey and require their submission within 30 days after receipt.

This survey has been approved by the Office of Management and Budget (OMB), under OMB Control Number 0607-0706, in accordance with the Paperwork Reduction Act, Public Law 104-13. We will provide copies of the forms upon written request to the Director, Bureau of the Census, Washington, DC 20233.

Based upon the foregoing, I have directed that an annual survey be conducted for the purpose of collecting these data.

Dated: December 14, 1998.

Kenneth Prewitt,

Director, Bureau of the Census.

Service Annual Survey

AGENCY: Bureau of the Census, Commerce.

ACTION: Notice of Determination.

SUMMARY: In accordance with Title 13, United States Code, Sections 182, 224, and 225, I have determined that 1998 data on total receipts and total revenue and expenses for selected service industries are needed to provide a sound statistical basis for the formation of policy by various governmental agencies and that these data also apply to a variety of public and business needs. Selected service industries include personal, business, automotive, repair, amusement, health, social, and other professional service industries. These data are not publicly available from nongovernment or other governmental sources.

FOR FURTHER INFORMATION CONTACT: Ruth A. Bramblett, Chief, Current Services Branch, Service Sector Statistics Division, on (301) 457-2766.

SUPPLEMENTARY INFORMATION: The Census Bureau is authorized to conduct surveys necessary to furnish current data on subjects covered by the major censuses authorized by Title 13, United

States Code. This survey will provide continuing and timely national statistical data on selected service industries for the period between economic censuses. The next economic census is in 2002. This survey will yield 1998 estimates for the aforementioned industries. The data collected in this survey will be within the general scope and nature of those inquiries covered in the economic censuses.

The Census Bureau needs reports from only a limited sample of service firms in the United States. The probability of a firm's selection is based on receipts or revenue size (estimated from payroll). The sample will provide, with measurable reliability, national level statistics on receipts of taxable firms and revenue and expenses of firms and organizations exempt from federal income taxes. We will mail report forms to the firms covered by this survey and require their submission within 30 days after receipt.

This survey has been approved by the Office of Management and Budget (OMB), under OMB approval Control Number 0607-0422, in accordance with the Paperwork Reduction Act, Pub. L. 104-13. We will provide copies of the forms upon written request to the Director, Bureau of the Census, Washington, DC 20233.

Based upon the foregoing, I have directed that an annual survey be conducted for the purpose of collecting these data.

Dated: December 14, 1998.

Transportation Annual Survey

AGENCY: Bureau of the Census, Commerce.

ACTION: Notice of Determination.

SUMMARY: In accordance with Title 13, United States Code, sections 182, 224, and 225, I have determined that 1998 operating revenue and total operating expenses are needed for the for-hire trucking industry, and total operating revenues are needed for public warehousing industries to provide a sound statistical basis for the formation of policy by various governmental agencies, and that these data also apply to a variety of public and business

needs. These data are not publicly available from nongovernment or other governmental sources.

FOR FURTHER INFORMATION CONTACT: Ruth A. Bramblett, Chief, Current Services Branch, Services Sector Statistics Division, on (301) 457-2766.

SUPPLEMENTARY INFORMATION: The Census Bureau is authorized to conduct surveys necessary to furnish current data on subjects covered by the major censuses authorized by Title 13, United States Code. Certain Corrosion-Resistant Carbon Steel Flat Products and Certain Cut-to-Length Carbon Steel Plate From Canada: Notice of Extension of Final Results of Antidumping Duty Administrative Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of extension of time limits for final results of antidumping duty administrative review

EFFECTIVE DATE: December 24, 1998.

FOR FURTHER INFORMATION CONTACT: Rebecca Trainor or Thomas Gilgunn, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-0666 and (202) 482-0648, respectively.

The Applicable Statute

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act) are to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are to 19 CFR part 351 (1998).

Extension of Time Limits for Final Results

The Department of Commerce has received a request to conduct an administrative review of the antidumping duty order on certain corrosion-resistant carbon steel flat products and certain cut-to-length carbon steel plate from Canada. On September 25, 1997 (62 FR 50292), the Department initiated this antidumping administrative review covering the period August 1, 1996 through July 31, 1997.

Because these cases involve a number of complex issues and the Department must review data and comments recently placed on the record, it is not practicable to complete this review within the time limits mandated by section 751(a)(3)(A) of the Act. Therefore, in accordance with that section, the Department is extending the time limits for the final results to January 2, 1999. See "Extension of Time Limit for the Review of Certain Corrosion-Resistant Carbon Steel Plate Flat Products and Certain Cut-to-Length

Carbon Steel Plate from Canada." This extension of time limits is in accordance with section 751(a)(3)(A) of the Act.

Dated: December 17, 1998.

Roland MacDonald,

Acting Deputy Assistant Secretary for AD/CVD Enforcement III

Applications for Duty-Free Entry of Scientific Instruments

Pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 a.m. and 5:00 p.m. in Room 4211, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC.

Docket Number: 98-064. **Applicant:** University of Colorado, P.O. Box 173364, Denver, CO 80217. **Instrument:** Ammonia Flux Analyzer, Model AMANDA-100. **Manufacturer:** ECN Fuels, The Netherlands. **Intended Use:** The instrument is intended to be used for the study of ammonia exchange fluxes and the comparison of deciduous forest exchange with coniferous forest exchange. **Application accepted by Commissioner of Customs:** November 30, 1998.

Docket Numbers: 98-065 and 98-066. **Applicant:** Montana State University, Physics Department, EPS Building, Bozeman, MT 59717-3840. **Instrument:** (2) Optical Helium Cryostats. **Manufacturer:** Institute of Physics, Ukraine, CIS. **Intended Use:** These instruments are both replacements for an optical helium cryostat previously entered free of duty to be used to perform both spectroscopic and holographic experiments and various combinations thereof. These experiments will involve the study of (1) crystalline and polymeric dye-doped materials which show complicated photochemical transformation behavior
