

Number of Respondents: 600.

Estimated Time Per Response: 1 hr./log; 3 hrs./confidentiality submission.

Frequency of Response:

Recordkeeping: On occasion reporting requirement.

Total Annual Burden: 800 hours.

Total Annual Costs: \$23,000.

Needs and Uses: The Commission adopted a Model Protective Order (MPO) which can be used when it is appropriate to grant limited access to information that the Commission determines should not be routinely available for public inspection. The MPO requires that the party granted access to the confidential materials keep a written record of all copies made and to provide this record to the submitter of the confidential materials on request. Order ¶ 27. This approach was adopted to facilitate the use of confidential materials under an MPO, instead of restricting access to the materials. The copy log under the MPO will be used to help assure the party submitting the confidential materials that there is limited access to the materials. Without the copy log for MPOs, the submitter of confidential information would not be assured that there is limited distribution of sensitive information. The Commission also amended 47 C.F.R. 0.459(b) to set forth the type of information that should be included when a party submits information to the Commission for which it seeks confidential treatment. Order ¶ 13. This listing of the types of information to be submitted was adopted to provide guidance to the public for confidentiality requests. The information provided under amended Section 0.459(b) will help the Commission determine whether a request for confidential treatment should be granted. Without the guidelines for submissions requesting confidential treatment of materials, the Commission would not have the information it requires to make an informed decision concerning such requests.
