DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[IC98-001-000 FERC Form No. 1]

Proposed Information Collection and Request for Comments

February 10, 1998.

AGENCY: Federal Energy Regulatory Commission, Energy.

ACTION: Notice of proposed information collection and request for comments.

SUMMARY: In compliance with the requirements of Section 3506(c)(2)(a) of the Paperwork Reduction Act of 1995 (Pub. L. No. 104-13), the Federal Energy Regulatory Commission (Commission) is soliciting public comment on the specific aspects of the information collection described below.

DATES: Consideration will be given to comments submitted within 60 days of the publication of the notice.

ADDRESSES: Copies of the proposed collection of information can be obtained from and written comments may be submitted to the Federal Energy Regulatory Commission, Attn: Michael Miller, Information Services Division, ED-12.4, 888 First Street N.E., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Michael Miller may be reached by telephone at (202) 208-1415, by fax at (202) 273-0873, and by e-mail at michael.miller@ferc.fed.us.

SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC Form 1 "Annual Report for Major Electric Utilities, Licensees and Others" (OMB No. 1902-

0021) is used by the Commission to implement the statutory provisions of the Federal Power Act (FPA) 16 U.S.C. 791a-825r. The Commission is authorized and empowered to make investigations, collect and record data, prescribe rules and regulations concerning accounts, records and memoranda as necessary or appropriate for administering the FPA. The Commission may prescribe a system of accounts for jurisdictional companies and, after notice and opportunity for hearing, may determine the accounts in which particular outlays and receipts will be entered, charged or credited. Commission staff use the data in the Commission's audit program and continuous review of the financial condition of regulated companies. The data is also used in various rate proceedings and supply programs. Data from certain schedules is used to compute annual charges which are then assessed against public utilities to recover the Commission's annual costs. The information filed with the Commission is a mandatory requirement contained in the format of a written form for providing annual financial data. This information is also submitted via electronic media consisting of two duplicate diskettes. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR Parts 41, 101, 141.1 and 385.2011.

Action: The Commission is requesting a three-year extension of the current expiration date, with no changes to the existing collection of data.

Burden Statement: Public reporting burden for this collection is estimated as:

Number of respondents annually (1)	Number of responses per respondent (2)	Average burden hours per response (3)	Total annual burden hours (1)×(2)×(3)
193	1	1,217 hours	234,881 hours.

Estimated cost burden to respondents: 234,881 hours/2,088 hours per year × \$109,889 per year = \$12,361,513. The cost per respondent is equal to \$64,049.

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information;

(3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to

providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will

have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology e.g. permitting electronic submission of responses.

David P. Boergers,

Acting Secretary.

The information filed with the Commission is a mandatory requirement contained in the format of a written form for providing annual financial data. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR Parts 41, 101, 141.2.

Action: The Commission is requesting a three-year extension of the current expiration date, with no changes to the existing collection of data.

Burden Statement: Public reporting burden for this collection is estimated as:

Number of respondents annually (1)	Number of responses per respondent (2)	Average burden hours per response (3)	Total annual burden hours (1)×(2)×(3)
17	1	32 hours	544 hours.

Estimated cost burden to respondents: 544 hours/2,088 hours per year×\$109,889 per year=\$28,630. The cost per respondent is equal to \$1,684.

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information;
