

contractor hours will be required to complete the Report to Congress.

(iii) Enhance the quality, utility, and clarity of the information to be collected.

- Recent revisions to the Reporting Form were conducted by representatives from the SBTCPs, who have been reporting on the activities of their programs since 1995 and are familiar with these reporting requirements. They provided extensive review of the proposed Reporting Form and suggested modifications, which then were incorporated into the Reporting Form.

Pretesting of the original collection instrument was accomplished by consolidating all comments received following the states' review of a draft of the Reporting Form and an extensive discussion of the Form at the 1995 National Small Business Ombudsman and Small Business Assistance Program Conference.

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses).

- Each year, every state will be provided with the Reporting Form on disk and in hard copy along with instructions for gathering the data and completing the Form. States may complete their Report by typing the information on the disk and submitting the disk to the EPA SBO.

As more states gain Internet access, the Reporting Form also may be made available online, downloaded for completion, and returned via Internet to the EPA SBO.

Burden Statement: This annual information collection involves responses from all 50 states, 2 territories (Puerto Rico and the Virgin Islands), and the District of Columbia, for a total of 53 respondents.

The requested information, for the most part, is collected as normal program activity information for the SBTCPs. On an average, the information can be compiled and maintained by the state within 80 hours annually (assuming the state organization continuously maintains their records in a reasonably efficient manner). The 80 hour per state estimate includes 4 hours for record keeping and 76 hours for reporting.

For each respondent, the annual cost burden is estimated to be \$2,102.76. Total capital and start-up cost component annualized over its expected useful life is \$0. Total operations and maintenance is estimated at \$0, and the

cost for purchase of services is estimated at \$0.

Total annual burden for the 53 respondents is estimated at 4,240 hours at a cost of \$111,446.28.

Federal burden is estimated to be 274 hours at an annual labor cost of \$14,085.32. Total capital and start-up costs are \$0. Total operations and maintenance costs are estimated to be \$11,506. The cost to purchase services is \$75,000.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collection(s) Approved by Office of Management and Budget

February 19, 1998.

The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collection(s) pursuant to the Paperwork Reduction Act of 1995, 44 USC 3501-3520. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. Notwithstanding any other provisions of law, no person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Questions concerning the OMB control numbers and expiration dates should be directed to Jerry Cowden, Federal Communications Commission, (202) 418-0447.

Federal Communications Commission.

OMB Control No.: 3060-0291.

Expiration Date: 2/28/2001.

Title: 90.477 Interconnected systems.

Form Number: Not

applicable. Estimated annual burden: 1,000 hours; 1 hour per response; 1,000 respondents.

Description: This section allows private land mobile radio licensees to use common point telephone interconnection with telephone service costs distributed on a non-profit cost sharing basis. Records of such arrangements must be placed in the licensee's station records and made available to participants in the sharing arrangement and the Commission upon request.

OMB Control No.: 3060-0224.

Expiration Date: 2/28/2001.

Title: 90.151 Requests for waiver.

Form Number: Not applicable.

Estimated Annual Burden: 120 hours; 2 hours per respondent; 60 respondents.

Description: The Commission has the responsibility to establish and administer rules for the orderly and efficient use of the radio spectrum. Circumstances do arise, however, where general rules cannot properly address the needs of the public, and waiver of those rules is desirable. In order to enable the Commission to make an informed decision on the desirability of such waivers, applicants are required to submit information justifying why a waiver is needed.

OMB Control No.: 3060-0226.

Expiration Date: 2/28/2001.

Title: 90.135(d) & (e) Modification of license.

Form Number: Not

applicable. Estimated Annual Burden: 276 hours; 0.167 hour per respondent; 1,656 respondents.

Description: These rule paragraphs require licensees who have changed their name, address, number and location of station control points, number of mobile units, interconnection status, and/or sharing status to notify the Commission. This information collection applies only to licensees who elect to inform the Commission by letter of these changes. Licensees may also use forms to notify us of these changes. Notification is necessary to maintain an accurate database that is used by both the Commission, frequency coordinators and the public in corresponding with licensees regarding interference resolution and licensing matters.

OMB Control No.: 3060-0281.

Expiration Date: 2/28/2001.

Title: 90.651 Supplemental reports required of licensees authorized under this subpart.

Form Number: Not applicable.

Estimated Annual Burden: 2,724 hours; 0.166 hour per respondent; 16,408 respondents.

Description: The radio facilities addressed in this subpart of the rules are allocated on and governed by regulations designed to award facilities on a need basis determined by the number of mobile units served by each base station. This is necessary to avoid frequency hoarding by applicants. This rule section requires licensees to report the actual number of mobile units served. The various subparagraphs of this rule apply to different categories of licensees and define exactly what reports are required of each category.
