

Commission's Regulations requesting permission and approval to abandon in place by sale to Dominion Gas Ventures, Inc. (Dominion), a gas gatherer, a lateral and related meter facilities located in Dewitt County, Texas. The application is on file with the Commission and open to public inspection. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

Natural states that the facilities were originally constructed as a means of receiving gas purchased from Westland Oil Development corporation, a producer. These facilities are no longer related to any gas purchase contracts of Natural, which no longer performs a traditional merchant function. Specifically, Natural proposes to abandon approximately 2.8 miles of 6-inch pipeline lateral ("North Gohlke"), and two 3-inch meters, in Dewitt County, Texas. There are no firm transportation agreements containing primary receipt points that need to be terminated in connection with the proposed sale of the North Gohlke Lateral. As for interruptible transportation agreements under Natural's Rate Schedule ITS, shippers are entitled to utilize all points in Natural's Electronic Catalog of Receipt and Delivery Points ("Catalog of Points"). Upon transfer of the facilities at issue here, Natural will simply delete the existing points from its catalog of Points. After closing, to assure continuity of service to existing customers, Dominion will provide gathering service on an open access basis and will undertake to negotiate satisfactory arrangements with the existing shippers. Natural states that, presently, Dominion is the only shipper utilizing the North Gohlke Lateral. Natural states the facilities will be retained in place by Dominion.

The subject facilities are proposed to become part of and interconnect with Dominion's existing non-jurisdictional gathering system. Therefore, Natural requests that the Commission specify in its order in this docket that following abandonment, and transfer to Dominion, the subject facilities will be non-jurisdictional and not subject to regulation by the Commission.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 19, 1999, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the regulations under the

Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any proceeding herein must file a motion to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Natural to appear or to be represented at the hearing.
