Please cite OMB Control No. 9000-0067, Incentive Contracts, in all correspondence.

**FOR FURTHER INFORMATION CONTACT:** Ralph DeStefano, Federal Acquisition Policy Division, GSA (202) 501-1758.

**SUPPLEMENTARY INFORMATION:**

**A. Purpose**

Incentive contracts are normally used when a firm fixed-price contract is not appropriate and the required supplies or services can be acquired at lower costs, and sometimes with improved delivery or technical performance, by relating the amount of profit or fee payable under the contract to the contractor's performance.

The information required periodically from the contractor—such as cost of work already performed, estimated costs of further performance necessary to complete all work, total contract price for supplies or services accepted by the Government for which final prices have been established, and estimated costs allocable to supplies or services accepted by the Government and for which final prices have not been established—is needed to negotiate the final prices of incentive-related items and services.

The contracting officer evaluates the information received to determine the contractor's performance in meeting the incentive target and the appropriate price revision, if any, for the items or services.

**B. Annual Reporting Burden**

The annual reporting burden is estimated as follows: Respondents, 3,000; responses per respondent, 1; total annual responses, 3,000; preparation hours per response, 1; and total response burden hours, 3,000.

**Obtaining Copies of Proposals**

Requester may obtain copies of the justification from the General Services Administration, FAR Secretariat (MVRs), Room 4035, Washington, DC 20405, telephone (202) 208-7312. Please cite OMB Control No. 9000-0067, Incentive Contracts, in all correspondence.

**SUPPLEMENTARY INFORMATION:**

**A. Purpose**

Under Federal contracts requiring that equipment (e.g., pumps, fans, generators, chillers, etc.) be installed in a project, the Government must determine that the equipment meets the contract requirements. Therefore, the contractor must submit sufficient data

on the particular equipment to allow the Government to analyze the item.

The Government uses the submitted data to determine whether or not the equipment meets the contract requirements in the categories of performance, construction, and durability. This data is placed in the contract file and used during the inspection of the equipment when it arrives on the project and when it is made operable.

**B. Annual Reporting Burden**

Public reporting burden for this collection of information is estimated to average .25 hours per completion, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The annual reporting burden is estimated as follows: Respondents, 3,160; responses per respondent, 1.5; total annual responses, 4,740; preparation hours per response, .25; and total response burden hours, 1,185.

**FOR FURTHER INFORMATION CONTACT:** Jack O'Neill, Federal Acquisition Policy Division, GSA (202) 501-3856.

**SUPPLEMENTARY INFORMATION:**

**A. Purpose**

The clause "Accident Prevention" (48 CFR 52.236-13) requires Federal construction contractors to keep records of accidents incident to work performed under the contract that result in death,

traumatic injury, occupational disease or damage to property, materials, supplies or equipment. Records of personal inquiries are required by OSHA (OMB Control No. 1220-0029). The Federal Acquisition Regulation requires records of damage to property, materials, supplies or equipment to provide background information when claims are brought against the Government.

If the contract involves work of a long duration, the contractor must submit a written proposal for implementation of the clause. The Accident Prevention Plan, for projects that are hazardous or of long duration, is analyzed by the Contracting Officer along with the agency safety representatives to determine if the proposed plan will meet the requirement of the safety regulations and applicable statutes. The records maintained by the contractor are used to evaluate compliance and may be used in workmen's compensation cases. The Accident Prevention Plan is placed in the contract file for reference.

**B. Annual Reporting Burden**

Public reporting burden for this collection of information is estimated to average 2 hours per completion, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The annual reporting burden is estimated as follows: Respondents, 2,106; responses per respondent, 2; total annual responses, 4,212; preparation hours per response, 2; and total response burden hours, 8,424.
