**AGENCY:** Federal Communications Commission

**ACTION:** Final rule; Petition for Reconsideration.

**SUMMARY:** This order implements pay phone compensation provisions of section 276 of the Telecommunications Act of 1996. This Order responds to an order of the U.S. Court of Appeals for the DC. Circuit, which remanded certain compensation rules adopted by the Federal Communications Commission in the Second Report Order in CC Docket No. 96-128, FCC No. 97-371, 62 FR 58659 (October 30, 1997). This Order reduces from \$.284 to \$.240 the default per-call compensation that is owed by long distance carriers to pay phone

providers for compensable calls originating from pay phones. This Order also addresses other issues relating to the Commission's rules implementing the pay phone provisions of the Telecommunications Act of 1996.

#### I. Introduction

1. In this proceeding, we continue our efforts to implement the requirements of section 276 of the Telecommunications Act of 1996 ("the 1996 Act"). Section 276 directs us to promulgate regulations that will achieve three basic policy objectives with respect to the provision of payphone services: (1) promoting a competitive payphone market; (2) ensuring the widespread deployment of payphones for the benefit of the general public; and (3) ensuring that providers of payphone services receive fair compensation for every call made using their payphones. The overarching goals of the 1996 Act further instruct us to establish these regulations in a pro-competitive, deregulatory framework that will open up telecommunications services to competitive forces nationwide. In this Order, we also respond specifically to issues remanded to us by the Court upon its review of the Commission's previous order.

##### A. The Commission's Prior Orders

2. In the prior orders in this proceeding, the Commission has fulfilled much of the congressional mandate embodied in section 276 by creating the structural groundwork necessary for competition to flourish in the provision of payphone services. See *Implementation of the Pay Telephone*

*Reclassification and Compensation Provisions of the Telecommunications Act of 1996*, CC Docket No. 96-128, Notice of Proposed Rulemaking, 61 FR 31481 (June 20, 1996) (*NPRM*); Report and Order, 61 FR 52307 (October 7, 1996) (*First Report and Order*); Order on Reconsideration, 61 FR 65341 (December 12, 1996) (*First Report and Order on Reconsideration*) (together the *First Report and Order* and the *First Report and Order on Reconsideration* are referred to as the *Payphone Orders*). The *Payphone Orders* were affirmed in part and vacated in part. See *Illinois Public Telecomm. Ass'n v. FCC*, 117 F.3d 555 (D.C. Cir. 1997) (*Illinois Public Telecomm.*). The Commission addressed the issues remanded by *Illinois Public Telecomm.* in the Second Report and Order, 62 FR 58659 (October 30, 1997) (*Second Report and Order*). The Second Report and Order was also appealed. On appeal, the Court remanded certain issues to the Commission. See *MCI Telecomm. Corp. et al. v. FCC*, 143 F.3d 606 (D.C. Cir. 1998) (*MCI v. FCC*). In addition to responding to those issues remanded by the Court, this Order also addresses issues raised by parties that petitioned us to reconsider various decisions made in the Second Report and Order.

3. Specifically, the Commission has eliminated implicit subsidies to payphones provided by local exchange carriers (LECs) that gave such companies an unfair competitive advantage compared to non-LEC payphone providers. Similarly, the Commission established non-structural safeguards to prevent Bell Operating Companies (BOCs) from discriminating in favor of their own payphones in the provision of local service, as well as other measures designed to place all providers of payphone services on an equal competitive footing. The Commission also deregulated the local coin rate for payphone calls to allow the competitive marketplace to set fair compensation for such calls. None of these actions is implicated by the steps we take in the instant order.

4. The Commission has adopted two prior orders aimed at balancing the policy objectives identified above. In these prior orders, the Commission gave primary importance to Congress's objective of establishing a market-based, deregulatory mechanism for payphone compensation, as required both in section 276 and the generally pro-competitive goals of the 1996 Act. The Commission recognized, however, that various statutory, technological, and economic factors inhibited the development of a fully deregulated means of providing fair compensation
