DEPARTMENT OF LABOR**Employment and Training
Administration****Investigations Regarding Certifications
of Eligibility to Apply for Worker
Adjustment Assistance**

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Acting Director of the Office of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to Section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. The investigations

will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than April 19, 1999.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than April 19, 1999.

The petitions filed in this case are available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 22nd day of March, 1999.

Grant D. Beale,

Acting Director, Office of Trade Adjustment Assistance.

NUCLEAR REGULATORY COMMISSION

Carolina Power & Light Company; H. B. Robinson Steam Electric Plant, Unit No. 2 Environmental Assessment and Finding of No Significant Impact

Docket No. 50-261

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License DPR-23 issued to Carolina Power and Light Company (the licensee) for operation of the H. B. Robinson Steam Electric Plant (HBRSEP), Unit 2, located at the licensee's site in Darlington County, South Carolina.

Environmental Assessment

Identification of the Proposed Action

The proposed action would amend the Facility Operating License to reflect a revision to the HBRSEP Updated Final Safety Analysis Report (UFSAR) to include the evaluation of a previously unanalyzed spent fuel cask drop scenario. The analysis also considered a second scenario of potential damage by lateral movement of the cask into plant equipment that results in damage to the valves while shipping with the valve covers removed. The cask drop scenario is hypothesized to occur during movement of spent fuel shipping cask model IF-300, without the cask valve covers installed, from the decontamination facility at the HBRSEP to the shipping railcar using a crane in a non-single-failure-proof configuration, i.e. using a non-redundant cask lifting yoke. The maximum potential height from which the cask could be dropped during the time of transfer with a non-redundant cask lifting yoke is 30 feet. The postulated accident associated with lateral movement of the cask could occur anytime during the general handling of the cask without the cask valve covers installed. The proposed action is in accordance with the licensee's request for NRC review dated August 28, 1997, as supplemented by letters dated June 17, 1998, October 29, 1998, and February 11, 1999.

The Need for the Proposed Action

At HBRSEP, Unit No. 2, loaded Spent Fuel Shipping Casks are shipped by rail
