**BILLING CODE 4150-04-M**

**DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**National Institutes of Health**

**Submission for OMB Review; Comment Request; Organ Procurement Survey**

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995 (Pub. L. No. 104-13) and Office of Management and Budget (OMB) regulations at 5 C.F.R. 1320 (60 FR 44978, August 29, 1995), this notice announces the intention of the Department of Clinical Bioethics, National Institutes of Health (NIHDCB) to request approval for a new information collection, the Organ Procurement Survey. The proposed information collection was previously published in the **Federal Register** on May 5, 1998, page 24815 and allowed 60-days for public comment. No public comments were received. However, a respondent group has been deleted. This collection will now only involve surveying Organ Procurement Organizations (OPOs). The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

**PROPOSED COLLECTION:**

*Title:* Organ Procurement Survey.  
*Type of Information Collection Request:* NEW. *Need and Use of Information Collection:* Respondents for this telephone survey will be the directors of procurement (or executive director if the director of procurement is not available) of the 62 U.S. Organ Procurement Organizations (OPOs). Telephone interviews will last one half hour and are intended to provide information about OPOs' policies and practices regarding consent for organ donation. Data collected will help the National Institutes of Health (NIH) to serve patients at the NIH Clinical Center who are interested in the option of organ donation. The data collected will also help other medical professionals across the country in such consultation and will assist respondents and policy

makers in understanding the practice of organ donation nationwide. Results of the survey will be reported confidentially, either in the aggregate or

stripped of individual identifiers. *Frequency of Response:* Once. *Affected Public:* Business or other for-profit; Not-for-profit institutions; Federal

Government. *Type of Respondents:* OPOs. The annual reporting burden is as follows:

Type of respondents	Estimated number of respondents	Estimated number of responses per respondent	Average burden hours per response	Estimated total annual burden hours requested
OPOs (directors of procurement or executive directors) .....	62	1	0.5	31
Total .....	62	.....	.....	31

The annualized cost to respondents is estimated at: \$3,000,00. There are no Capital Costs to report. There are no Operating or Maintenance Costs to report.

**Request For Comments**

Written comments and/or suggestions from the public and affected agencies should address one or more of the following points: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

**Direct Comments to OMB**

Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the: Office of Management and Budget, Office of Regulatory Affairs, New Executive Office Building, Room 10235, Washington, D.C. 20503, Attention: Desk Officer for NIH. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact: Dr. David Wendler, Department of Clinical Bioethics, DCB, CC, NIH, Building 10, Room 1C 118, 9000 Rockville Pike, Bethesda, MD 20892-1156, or call non-toll-free number (301) 435-8726 or e-mail your request, including your address to: [dwendler@nih.gov](mailto:dwendler@nih.gov).

**Comments Due Date**

Comments regarding this information collection are best assured of having

their full effect if received on or before May 10, 1999.

Dated: March 16, 1999.

**DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**National Institutes of Health**

**National Institute on Aging;  
Cooperative Research and Development Agreement (CRADA)  
Opportunity to Develop a Library of New cDNA Clones Derived From Mouse Stem Cells**

**AGENCY:** NIA, NIH, DHHS.  
**ACTION:** Notice.

**SUMMARY:** The Laboratory of Genetics, in the National Institute on Aging (NIA), is seeking at least one collaborator to participate in a Cooperative Research and Development Agreement (CRADA) to develop uses for a growing library of new cDNA clones. The Laboratory of Genetics has been collecting the cDNA clones from mouse embryonic tissues. A current first cohort of 15,000 unique genes, with an average length of 1.5 kb, includes more than 40% that are previously unknown by comparison with all entries in dbEST (2/1/99); subsequent additional cohorts, aiming at more uniformly full-length clones and including comparable fractions of additional previously unknown genes, are in development. The NIA is interested in developing this unique cDNA library into a variety of prognostic, diagnostic, and therapeutic applications.

This opportunity is not necessarily limited to a single collaborator or a single CRADA; all viable proposals that are consistent with the mission of the NIA and the goals of the Laboratory of Genetics will be considered. If more than one acceptable CRADA proposal is

received, NIA may require that each research plan be crafted to protect against overlap. The term of each CRADA will be up to five (5) years.

**DATES:** Interested parties should notify the National Cancer Institute's Technology Development & Commercialization Branch, in writing, of their intent to file a formal proposal no later than May 24, 1999. Formal proposals must be submitted to this office no later than June 7, 1999.

**ADDRESSES:** Inquiries and proposals regarding this opportunity should be addressed to Bruce D. Goldstein; NCI Technology Development & Commercialization Branch; Suite 450, 6120 Executive Blvd.; Rockville, Maryland, 20852 (Tel. # 301-496-0477, FAX # 301-402-2117). Scientific inquiries should be addressed to Dr. David Schlessinger, Chief; NIA Laboratory of Genetics, 5600 Nathan Shock Drive; Baltimore, Maryland, 21224 (Tel. # 410-558-8337, FAX # 410-558-8331). Copies of the PHS Model CRADA are available.

**SUPPLEMENTARY INFORMATION:** A CRADA is the anticipated joint agreement to be entered pursuant to the Federal Technology Transfer Act of 1986, as amended by the National Technology Transfer and Advancement Act (Pub. L. 104-113 (Mar. 7, 1995)) and by Executive Order 12591 of April 10, 1987.

A CRADA is an agreement designed to enable certain collaborations between Government laboratories and non-Government laboratories. It is not a grant, and is not a contract for the procurement of goods/services. **THE NIA IS PROHIBITED FROM TRANSFERRING FUNDS TO A CRADA COLLABORATOR.** Under a CRADA, the NIA can offer the selected collaborator(s) access to facilities, staff, materials, and expertise. The collaborator(s) may contribute facilities, staff, materials, expertise, and funding to the collaboration. A CRADA collaborator may elect an option to an exclusive or non-exclusive license to Government intellectual property rights
