\*The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified

through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. DHHS, with the DHHS' National Laboratory Certification Program (NLCP) contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do. Upon finding a Canadian laboratory to be qualified, the DHHS will recommend that DOT certify the laboratory (**Federal Register**, 16 July 1996) as meeting the minimum standards of the "Mandatory Guidelines for Workplace Drug Testing" (59 **Federal Register**, 9 June 1994, Pages 29908-29931). After receiving the DOT certification, the laboratory will be included in the monthly list of DHHS certified laboratories and participate in the NLCP certification maintenance program.

### Bureau of Land Management

#### Resource Management Plan Amendment

**AGENCY:** Bureau of Land Management, Glenwood Springs Field Office, Department of the Interior.

**ACTION:** Notice of Intent.

**SUMMARY:** Pursuant to section 102 of the National Environmental Policy Act of 1969 and section 202 of the Federal Land Policy and Management Act of 1976 and Bureau of Land Management (BLM) regulations in CFR 1610.2 and 1610.5-5., BLM intends to write an Environmental Assessment which proposes to amend the Resource Management Plan (RMP) for the Glenwood Springs Field Office (GSFO) approved in January of 1984.

The amendment will consider management changes to the Red Hill area, approximately 3,093 acres, north of the town of Carbondale. It includes all BLM managed public lands bounded on the west by Highway 82, on the north by the Cattle Creek Road, on the east by County Road 112 and on the south by State Highway 82. The concerns of residents, the residential development on nearby private lands, new recreation information and the increase use has prompted BLM to consider amending the Resource Management Plan. A change in management strategy is needed to reduce conflicts between users, address adjoining private landowner concerns and enhance the experiences of visitors taking part in hiking, mountain biking and horseback-riding. The plan amendment will address the administrative recognition of the Red Hill area as a Special Recreation Management Area (SRMA), closure of the area to unauthorized motorized vehicles, and the designation of routes open for mountain bike riding. The amendment will also consider no surface occupancy (NSO) stipulations to maintain the current physical, social and managerial setting.

**DATES:** The BLM is accepting written comments concerning this Notice until February 3, 1999. Comments or requests to be placed on a mailing list should be mailed to the address below.

**ADDRESSES:** Comments should be sent to the Area Manager, Glenwood Springs

Field Office, Bureau of Land Management, 50629 Highway 6 & 24, P.O. Box 1009, Glenwood Springs, CO 81601.

**FOR FURTHER INFORMATION CONTACT:** Brian Hopkins, (970) 947-2840.

**SUPPLEMENTARY INFORMATION:** The Red Hill area is important to visitors and the community of Carbondale. Use and user conflicts in the Red Hill area have increased significantly with the population growth in the Roaring Fork Valley.

A group of concerned users and neighbors formed the Red Hill Planning Committee to look at the area's future. The final report of the Red Hill Project produced a series of proposed recommendations for management of Red Hill. Public meetings were held to discuss the recommendations. It was concluded that the current open travel designation and dispersed recreation management emphasis was inadequate for preventing resource damage and reducing user conflicts.

Visitors to the Red Hill area can generally expect to enjoy a mostly natural setting and see fewer people, largely due to challenging or difficult access. It was also advocated that the Bureau not authorize new roads and development that would negatively change the undeveloped setting that favors non-motorized activities and the desired recreational experiences of the users.
