Investigation**

Pursuant to section 221 of the Trade Act of 1974, an investigation was initiated on March 9, 1998 in response to a worker petition which was filed on behalf of workers and former workers at Zenith Electronics Corporation, located in Melrose Park, Illinois (TA-W-35, 396).

The Department of Labor has determined that the petitioners are covered under an existing certification, as amended (TA-W-34, 579). Consequently, further investigation in this matter would serve no purpose, and the investigation has been terminated.

[NAFTA-2935]

**Circle Four Farms, Milford, Utah;
Notice of Negative Determination
Regarding Application for
Reconsideration**

By application dated March 18, 1999, the company requested administrative reconsideration of the Department's negative determination regarding worker eligibility to apply for NAFTA-Transitional Adjustment Assistance (NAFTA-TAA). The denial notice applicable to workers of the subject firm located in Milford, Utah, was signed on March 8, 1999 will soon be published in the **Federal Register**.

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

- (1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;
- (2) If it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or
- (3) If in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justified reconsideration of the decision.

Findings of the initial investigation showed that workers of Circle Four Farms, Milford, Utah were engaged in employment related to the production of live swine. The Department's denial of NAFTA-TAA for workers of the subject firm was based on the determination that criteria (1) and (2) of the Group Eligibility requirements of paragraphs (a)(1) of section 250 of the Trade Act of 1974, as amended, were not met. Layoffs did not affect a significant proportion of the total workers at Circle Four Farms. Sales and production increased in 1998 compared to 1997.

The petitioner asserts that because of the continuation of low pork prices, additional positions have been eliminated at Circle Four Farms. The petitioner asks that the Department consider the petition based on the number of positions eliminated, not the total number of individuals terminated. Trade Act law does not contain a provision which would allow the Secretary to issue a determination for NAFTA-TAA eligibility based on the number of positions eliminated. The worker group eligibility requirements of paragraph (a)(1) of Section 250 stipulate that a "significant number of proportion of the workers * * * have become totally or partially separated * * *"

The petitioner further argues that because of the nature of the livestock industry, the Department should not use increasing sales and production as a criterion for denying the petition. Trade Act law does not contain a provision that allows the Secretary to depart from the requirement that sales or production, or both, have decreased absolutely.

Lastly, the petitioner asserts that low pork prices are a result of Canadian imports. U.S. Department of Agriculture data submitted by the petitioner confirms the petitioners allegation. Price, however, is not a basis for certification of the Circle Four Farm workers.

Conclusion

After review of the application and investigation findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.

Signed at Washington, DC, this 31st day of March 1999.

Acting Director, Office of Trade Adjustment Assistance.
