SUPPLEMENTARY INFORMATION: The San Francisco Bay/Sacramento-San Joaquin Delta Estuary (Bay-Delta system) is a critically important part of California's natural environment and economy. In recognition of the serious problems facing the region and the complex resource management decisions that must be made, the state of California and the Federal Government are working together to stabilize, protect, restore, and enhance the Bay-Delta system. The State and Federal agencies with management and regulatory responsibilities in the Bay-Delta system are working together as CALFED to provide policy direction and oversight for the process.

One area of Bay-Delta management includes the establishment of a joint State-Federal process to develop long-term solutions to problems in the Bay-Delta system related to fish and wildlife, water supply reliability, natural disasters, and water quality. The intent is to develop a comprehensive and balanced plan which addresses all of the resource problems. This effort, the CALFED Bay-Delta Program (Program), is being carried out under the policy direction of CALFED. The Program is exploring and developing a long-term solution for a cooperative planning process that will determine the most appropriate strategy and actions necessary to improve water quality, restore health to the Bay-Delta ecosystem, provide for a variety of beneficial uses, and minimize Bay-Delta system vulnerability. A group of citizen advisors representing California's agricultural, environmental, urban, business, fishing, and other interests who have a stake in finding long-term solutions for the problems affecting the Bay-Delta system has been chartered under the Federal Advisory Committee Act (FACA). The BDAC provides advice

to CALFED on the program mission, problems to be addressed, and objectives for the Program. BDAC provides a forum to help ensure public participation, and will review reports and other materials prepared by CALFED staff. BDAC has established a subcommittee called the Ecosystem Roundtable to provide input on annual workplans to implement ecosystem restoration projects and programs.

Minutes of the meeting will be maintained by the Program, Suite 1155, 1416 Ninth Street, Sacramento, CA 95814, and will be available for public inspection during regular business hours, Monday through Friday within 30 days following the meeting.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. 98–31]

Bonds Discount Pharmacy; Revocation of Registration

On April 17, 1998, the Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration (DEA), issued an Order to Show Cause to Bonds Discount Pharmacy (Respondent) of Golden, Mississippi notifying it of an opportunity to show cause as to why DEA should not revoke the pharmacy's DEA Certificate of Registration BBB4240723 pursuant to 21 U.S.C. 824(a)(2) and (a)(4) and deny any pending applications for renewal of such registration pursuant to 21 U.S.C. 823(f), for reason that the pharmacy's owner was convicted of a felony related to controlled substances and that the pharmacy's continued registration would be inconsistent with the public interest.

By letter dated May 20, 1998, Respondent, through counsel, filed a request for a hearing and the matter was docketed before Administrative Law Judge Gail A. Randall. In the midst of prehearing proceedings, the Government filed a Request for Stay of Proceedings and a Motion for Summary Disposition on September 22, 1998. The Government alleged that on July 23, 1998, the Mississippi Board of

Pharmacy (Board) issued an order suspending the pharmacist's license of Michael Bonds, Respondent's owner and pharmacist; indicating that Respondent's pharmacy permit was considered null and void; and placing Respondent in a "closed pharmacy" status. The Government argued that as a result, Respondent is not authorized to handle controlled substances in Mississippi and therefore DEA cannot maintain its registration.

Respondent was given until October 13, 1998 to file its response to the Government's motion. On October 16, 1998, Respondent filed several documents, including an Order issued by the Supreme Court of Mississippi granting Mr. Bonds' Petition for Consideration by the Full Court relating to his criminal conviction. On October 19, 1998, Respondent filed its Response to Motion for Summary Disposition, asking that the Government's motion be denied and all proceedings stayed in light of Mr. Bonds' pending challenge to his criminal conviction. Respondent argued that because all matters relating to Mr. Bonds' conviction are not yet concluded, DEA should not revoke Respondent's registration.

Apparently at the same time Respondent was filing its response to the Government's motion, Judge Randall issued an Order on October 19, 1998, giving Respondent until October 27, 1998, to file a response.

On October 27, 1998, Judge Randall issued her Opinion and Recommended Decision, finding that Respondent lacked authorization to handle controlled substances in Mississippi; granting the Government's Motion for Summary Disposition; and recommending that Respondent's DEA Certificate of Registration be revoked. On the same day as Judge Randall issued her Opinion and Recommended Ruling, Respondent filed an Amended Response to Motion for Summary Disposition, essentially arguing that Mr. Bonds is "in the posture of regaining his license to practice pharmacy."

Neither party filed exceptions to Judge Randall's Opinion and Recommended Decision, and on December 1, 1998, she transmitted the record of these proceedings to the Deputy Administrator.

The Deputy Administrator has considered the record in its entirety, and pursuant to 21 CFR 1316.67, hereby issues his final order based upon findings of fact and conclusions of law as hereinafter set forth. The Deputy Administrator adopts, in full, the Opinion and Recommended Decision of the Administrative Law Judge.
