

decided a new EIS would be necessary to address this additional interest.

Project issues include: loss of hydraulic head of groundwater associated with the coal seam; lowering of water levels and increased pumping costs; effects of coalbed methane development on air quality; possible hazardous emissions and pollutants from compressors; erosion and weed infestations from disposal of produced water; royalties on past venting of methane; water table drawdown and other potential hydrologic impacts; cumulative impacts of CBM development; potential impacts to threatened and endangered species, raptors, and fisheries; and potential impacts to ranching and agriculture.

Comments, including names and street addresses of respondents, will be available for public review at the Bureau of Land Management, Buffalo Field Office, 1425 Fort Street, Buffalo, Wyoming, during regular business hours (8:00 a.m. to 4:30 p.m.), Monday through Friday, except holidays, and may be published as part of the final EIS. Individual respondents may request confidentiality. If you wish to withhold your name or street address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comment. Such requests will be honored to the extent allowed by law. All submissions from organizations or businesses, and from individuals identifying themselves as representatives of officials of organizations or businesses, will be made available for public inspection in their entirety.

Dated: May 7, 1999.
