

SUMMARY: This action modifies Class E airspace at Jackson, MI. This action corrects the times of operation of the Class E airspace extension associated with the Class D airspace for Jackson County-Reynolds Field, and amends the Class E surface areas for the airport to include an airspace extension. The purpose of these actions is to make the Class D airspace and the associated Class E airspace extension for the airport consistent with each other, and to provide adequate controlled airspace for instrument approval procedures when the airport traffic control tower (ATCT) is closed.

EFFECTIVE DATE: 0901 UTC, September 9, 1999.

SUPPLEMENTARY INFORMATION:

History

On Wednesday, March 3, 1999, the FAA proposed to amend 14 CFR part 71 to modify Class E airspace at Jackson, MI (64 FR 10242). The proposal was to correct the legal description of the existing controlled airspace to reflect the actual configuration of that controlled airspace.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class E airspace areas designated as an extension to a Class D surface area are published in paragraph 6004, and Class E airspace areas designated as a surface area for an airport are published in paragraph 6002 of FAA Order 7400.9F dated September 10, 1998, and effective September 16, 1998, which is incorporated by reference in 14 CFR 71.1. The Class D airspace and Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 modifies Class E airspace at Jackson, MI, to make technical corrections to the legal descriptions of the Class E airspace extension to the Class D airspace for Jackson County-Reynolds Field, and by amending the Class E surface area for the airport to include the Class E extension to the surface area. The area will be depicted on appropriate aeronautical charts.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 95665, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9F, Airspace Designations and Reporting Points, dated September 10, 1998, and effective September 16, 1998, is amended as follows:

Paragraph 6004 Class E airspace areas designated as an extension to a Class D surface area.

[Airspace Docket No. 98-AWP-4]

Modification of Class E Airspace; Chico, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies the Class E airspace area at Chico, CA. The establishment of a Global Positioning System (GPS) Standard Instrument Approach Procedure (SIAP) to Runway (RWY) 13L and GPS RWY 31R at Chico Municipal Airport has made this action necessary. Controlled airspace extending upward from 700 feet or more above the surface of the earth is needed to contain aircraft executing the GPS RWY 31R SIAP to Chico Municipal Airport. The intended effect of this action is to provide adequate controlled airspace for Instrument Flight Rules (IFR) operations Chico Municipal Airport, Chico, CA.

EFFECTIVE DATE: 0901 UTC July 15, 1999.

SUPPLEMENTARY INFORMATION:

History

On March 30, 1999, the FAA proposed to amend 14 CFR part 71 by modifying the Class E airspace area at Chico, CA (64 FR 15142). Controlled airspace extending upward from 700 feet above the surface is needed to contain aircraft executing the GPS RWY 13L and GPS RWY 31R SIAP at Chico Municipal Airport. This action will provide adequate controlled airspace for IFR operations at Chico Municipal Airport, Chico, CA.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments to the proposal were received. Class E airspace designations for airspace extending from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9F dated September 10, 1998, and effective September 16, 1998, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR Part 71 modifies the Class E airspace area at Chico, CA. Controlled airspace extending upward from 700 feet above the surface is required for aircraft executing the GPS RWY 13L and GPS RWY 31R SIAP at Chico Municipal Airport. The effect of this action will provide adequate airspace for aircraft executing the GPS RWY 31R SIAP at Chico Municipal Airport, Chico, CA.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a

substantial number of small entities under the criteria of the Regulatory Flexibility Act.
