

petitioner also proposes that the nomenclature polyglactin 910 (glycolic-lactic acid polyester) be revised to the generic nomenclature 90 percent glycolide and 10 percent L-lactide.

The agency has determined under 21 CFR 25.32(l) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

Dated: May 5, 1999.

Alan M. Rulis,

*Director, Office of Premarket Approval,
Center for Food Safety and Applied Nutrition.*

BILLING CODE 4160-01-F

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Information Collection Submitted to the Office of Management and Budget (OMB) for Approval Under the Paperwork Reduction Act

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: The U.S. Fish and Wildlife Service has submitted the collection of information listed below to OMB for approval under the provisions of the Paperwork Reduction Act. A copy of the information collection requirement is included in this notice. If you wish to obtain copies of the proposed information collection requirement, related forms, and explanatory material, contact the Service Information Collection Clearance Officer at the address listed below.

DATES: OMB has up to 60 days to approve or disapprove information collection but may respond after 30 days. Therefore, to ensure maximum consideration, you must submit comments on or before July 6, 1999.

ADDRESSES: Send your comments on the requirement to the Office of Management and Budget, Attention: Department of the Interior Desk Officer, 725 17th Street, N.W., Washington, D.C. 20503, and to Rebecca Mullin, Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, ms 222-ARLSQ, 1849 C Street NW., Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: To request a copy of the information collection request, explanatory information and related forms, contact

Rebecca A. Mullin at (703)358-2287, or electronically to rmullin@fws.gov.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget (OMB) regulations at 5 CFR part 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). The U.S. Fish and Wildlife Service (We) has submitted a request to OMB to renew its approval of the collection of information for the Mourning Dove Call-Count Survey. We are requesting a 3-year term of approval for this information collection activity. A previous 60-day notice on this information collection requirement was published in the February 16, 1999 (64 FR 7660) **Federal Register** inviting public comment. No comments on the previous notice were received as of April 20, 1999. This notice provides an additional 30 days in which to comment on the following information.

Federal agencies may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection of information is 1018-0010.

The Migratory Bird Treaty Act (16 U.S.C. 703-711) and Fish and Wildlife Act of 1956 (16 U.S.C. 742d) designate the Department of the Interior as the key agency responsible for the wise management of migratory bird populations frequenting the United States and for the setting of hunting regulations that allow appropriate harvests that are within the guidelines that will allow for those populations' well being. These responsibilities dictate the gathering of accurate data on various characteristics of migratory bird populations. The Mourning Dove Call-Count Survey is an essential part of the migratory bird management program. The survey is a cooperative effort between us and State wildlife agencies. It is conducted each spring by State and Service biologists to provide the necessary data to determine the population status of the mourning dove. The survey results are then used to help guide us and the States in the annual promulgation of regulations for hunting mourning doves. Survey data are also used to plan and evaluate dove management programs and provide specific information necessary for dove research. If this survey were not used, there would be no way to determine the population status of mourning doves prior to setting regulations.

Title: Mourning Dove Call-Count Survey.

Approval Number: 1018-0010.

Service Form Number: 3-159.

Frequency of Collection: Annually.

Description of Respondents: State, local, tribal, provincial, or Federal employees.

Total Annual Burden Hours: The reporting burden is estimated to average 2.5 hours per respondent. The Total Annual Burden hours is 2,655 hours.

Total Annual Responses: About 1,062 individuals are expected to participate in the survey.

We invite comments concerning this renewal on: (1) Whether the collection of information is necessary for the proper performance of our migratory bird management functions, including whether the information will have practical utility; (2) the accuracy of our estimate of the burden of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and, (4) ways to minimize the burden of the collection of information on respondents. The information collections in this program are part of a system of record covered by the Privacy Act (5 U.S.C. 552(a)).

Dated: May 5, 1999.

Daniel M. Ashe,

Assistant Director for Refuges and Wildlife.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget (OMB) regulations at 5 CFR part 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). The U.S. Fish and Wildlife Service (We) has submitted a request to OMB to renew its approval of the collection of information for the North American Woodcock Singing Ground Survey. We are requesting a 3-year term of approval for this information collection activity. A previous 60-day notice on this information collection requirement was published in the February 16, 1999 (64 FR 7660) **Federal Register** inviting public comment. No comments on the previous notice were received as of April 20, 1999. This notice provides an additional 30 days in which to comment on the following information.

Federal agencies may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection of information is 1018-0019.

The Migratory Bird Treaty Act (16 U.S.C. 703-711) and Fish and Wildlife Act of 1956 (16 U.S.C. 742d) designate the Department of the Interior as the key agency responsible for the wise management of migratory bird populations frequenting the United States and for the setting of hunting regulations that allow appropriate harvests that are within the guidelines that will allow for those populations' well being. These responsibilities dictate the gathering of accurate data on various characteristics of migratory bird populations. The North American Woodcock Singing-Ground Survey is an essential part of the migratory bird

management program. This survey is conducted annually by State and Federal conservation agencies to provide the necessary data to determine the population status of the woodcock. In addition, the information is vital in assessing the relative changes in the geographic distribution of the woodcock. The information is used primarily by us to develop recommendations for hunting regulations. It is also used by us, State conservation agencies, University associates and other interested parties for various research and management projects. Without information on the population's status, we might promulgate hunting regulations that were too liberal thus causing harm to the woodcock population, or too conservative, thus unduly restricting recreational opportunities afforded by woodcock hunting.

Title: North American Woodcock Singing Ground Survey.

Approval Number: 1018-0019.

Service Form Number: 3-156.

Frequency of Collection: Annually.

Description of Respondents: State, local, tribal, provincial, or Federal employees.

Total Annual Burden Hours: The reporting burden is estimated to average 0.67 hours per respondent. The Total Annual Burden hours is 500 hours.

Total Annual Responses: About 750 individuals are expected to participate in the survey.

We invite comments concerning this renewal on: (1) Whether the collection of information is necessary for the proper performance of our migratory bird management functions, including whether the information will have practical utility; (2) the accuracy of our estimate of the burden of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and, (4) ways to minimize the burden of the collection of information on respondents. The information collections in this program are part of a system of record covered by the Privacy Act (5 U.S.C. 552(a)).

Dated: May 5, 1999.

Daniel M. Ashe,

Assistant Director for Refuges and Wildlife.

BILLING CODE 4310-55-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Availability of a Habitat Conservation Plan and Receipt of an Application for an Incidental Take Permit for the Maytag Trail, Douglas County, Colorado

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability and receipt of application.

SUMMARY: This notice advises the public that Douglas County has applied to the Fish and Wildlife Service for an incidental take permit pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended. The proposed permit would authorize the incidental take of the Preble's meadow jumping mouse (*Zapus hudsonius prebei*), federally listed as threatened, and loss and modification of its habitat associated with construction and use of a pedestrian and equestrian trail in Douglas County, Colorado. The permit would be in effect for 3 years.

We announce the receipt of the County's incidental take permit application that includes a proposed Low-Effect Habitat Conservation Plan for the Peble's meadow jumping mouse for the Maytag trail project. The proposed Habitat Conservation Plan is available for public comment. It fully describes the proposed project and the measures the County would undertake to minimize and mitigate project impacts to the Preble's meadow jumping mouse. We have made a preliminary determination that the County's Plan qualifies as a "low-effect" habitat conservation plan eligible for categorical exclusion under the National Environmental Policy Act. We explain the basis for this determination in an Environmental Action Statement, which is also available for public review. This notice is provided pursuant to section 10 (c) of the Act.

DATES: Written comments on the permit application and Plan should be received on or before July 6, 1999.

ADDRESSES: Comments regarding the permit application or the plan should be addressed to LeRoy Carlson, Field Supervisor, Fish and Wildlife Service, Colorado Field Office, P.O. Box 25486, DFC, Denver, CO 80225-0207. Comments may be sent by facsimile to (303) 275-2371.

FOR FURTHER INFORMATION CONTACT: Ms. Kathleen Linder, Fish and Wildlife Biologist, Colorado Field Office, telephone (303) 275-2370.

SUPPLEMENTARY INFORMATION:
