## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. PL98-7-000]

#### Technical Conference on Year 2000 Issues for the Oil and Natural Gas Sector; Notice of Technical Conference

June 1, 1999.

Take notice that the Federal Energy Regulatory Commission (FERC) is sponsoring a technical conference to be held on Tuesday, June 29, at 10:00 a.m., in the Commission Meeting Room at 888 First Street, NE, Washington, DC 20426. This conference is being held as an outreach for the President's Council on Year 2000 Conversion (Council), which designated FERC as the lead agency for the Oil and Gas Sector of its Energy Working Group. The conference will be hosted by the Natural Gas Council (NGC) and the American Petroleum Institute (API). All interested persons are invited to attend.

The third report in a series of quarterly assessments of Y2K readiness efforts will be presented by the industry associations that are part of the Council's Oil and Gas Sector Working

Group, from the April survey which was distributed by the industry associations to individual companies. Survey results will be compiled and aggregated by industry associations so that individual company responses remain anonymous. This conference will focus on promoting awareness of Year 2000 issues and coordinating information sharing on testing and solutions among companies in the oil and natural gas industries rather than internal solutions of individual companies.

The proposed agenda for the conference is as follows:

Opening Remarks  
Introduction to Technical Conference  
Industry Progress and Survey Results  
Inter-Industry Efforts,  
Interdependencies Workshop  
A Municipal Perspective  
International Supply Chain  
Dependencies  
Customer Communications Efforts  
Overview of Industry/Company Drills  
Industry Audits  
Questions and Answers

The Oil and Gas Sector has developed a Website ([www.ferc.fed.us](http://www.ferc.fed.us)) that is linked to the Council's Website ([www.y2k.gov](http://www.y2k.gov)), where the results and other related information will be posed and made available to the public.

The public may participate during question and answer periods, but no witness panels will be established. Written comments are welcome at any time and should reference Docket No. PL98-7-000. For additional information, please contact Donna La May at (202) 501-2341 or by electronic mail at "donna.lamay@ferc.fed.us."

The Capitol Connection offers all Open and special FERC meetings *live* over the Internet as well as, via telephone and satellite. ## ENVIRONMENTAL PROTECTION AGENCY

[FRL-6355-7]

### Notice of Stakeholder Meeting on the Revision to Federal Underground Injection Control (UIC) Requirements for Class I—Municipal Wells in Florida

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice; announcement of stakeholder meeting.

**SUMMARY:** The U.S. Environmental Protection Agency (EPA) will hold a public meeting to gather information and collect opinions from parties who will be affected by or are otherwise interested in the Federal Underground Injection Control Requirements for Class I—Municipal Wells in Florida. EPA will consider comments and views expressed at this meeting in developing the final proposed regulation. EPA encourages the full participation of all stakeholders throughout this process.

**DATES AND LOCATION:** The stakeholder meeting will be held on Wednesday, July 7, 1999, 9:30 a.m. to 4:00 p.m. EDT.

**ADDRESSES:** The July 7, 1999 stakeholder meeting will be held in the Public Room of the Florida Department of Environmental Protection, Southeast District, 400 North Congress Ave., West Palm Beach, FL 33401.

To register for the meeting, please contact the EPA Safe Drinking Water Hotline at 1-800-426-4791, or Nancy H. Marsh, EPA Region 4, Ground Water & UIC Section at (404) 562-9450. Participants registering in advance will be mailed a packet of materials before the meeting. Interested parties who cannot attend the meeting in person may participate via conference call and should register with the Safe Drinking Water Hotline. Conference lines are limited and will be allocated on the basis of first-reserved, first served.

**FOR FURTHER INFORMATION CONTACT:** For general information on meeting logistics, please contact the Safe Drinking Water Hotline at 1-800-426-4791. For information on the activities related to this meeting, contact: Nancy H. Marsh, U.S. EPA Region 4 at (404) 562-9450 or e-mail [marsh.nancy@epa.gov](mailto:marsh.nancy@epa.gov) or Howard Beard, U.S. EPA at (202) 260-8796 or e-mail at [beard.howard@epa.gov](mailto:beard.howard@epa.gov).

**SUPPLEMENTARY INFORMATION:** EPA developed underground injection control regulations for Class I wells to protect underground sources of drinking water (USDWs). These regulations, found in 40 CFR parts 144 and 146, set technical standards which would *not*

allow for the movement of *any fluids* into a USDW. Subsequent to the initial permitting of several Class I Municipal Wells in Florida, some facilities have exhibited movement of fluids into the USDW as determined through monitoring of the injection activity. The movement of fluid is thought to occur because of the unique geology in Florida. EPA is proposing a change in the regulations for Class I Municipal Wells in certain portions of Florida only. One proposed alternative to existing regulations would allow for the migration of fluids if the facilities meet certain requirements prior to injection. In the alternative, injected fluids must meet primary drinking water standards and other health based standards prior to injection or the facility must demonstrate through an engineering study that these limits would be met prior to any fluids reaching the base of the USDW. The agency is interested in soliciting ideas regarding this alternative as well as any other alternatives.

Dated: May 28, 1999.
