

*Respondents:* Business or other for-profit.

*Number of Respondents:* 20 AM Licensees.

*Estimated Time Per Response:* 1 hour per 73.69(d)(1); 2 hours per 73.69(d)(5).

*Frequency of Response:* On occasion.

*Total Annual Burden:* 30.

*Total Annual Costs:* None.

*Needs and Uses:* Section 73.69(c) requires AM station licensees with directional antennas to file an informal request to operate without required monitors with the Mass Media Bureau in Washington, DC, when conditions beyond the control of the licensee prevent the restoration of an antenna monitor to service within a 120 day period. Section 73.69(d)(1) requires that AM licensees with directional antennas request and obtain temporary authority to operate with parameters at variance with licensed values when an authorized antenna monitor is replaced pending issuance of a modified license specifying new parameters. Section 73.69(d)(5) requires AM licensees with directional antennas to submit an informal request for modification of license to the FCC within 30 days of the date of antenna monitor replacement. Station licensees must operate in accordance with station licenses. The data collected by Section 73.69(c) is used by the FCC Engineer to grant continued approval to operate without the required monitors. The data collected by Section 73.69(d)(1) is used by FCC staff to grant interim authority to licensees to operate in variance of the station license. The data collected by Section 73.69(d)(5) is used by FCC staff to issue a modified license.

### Proposed Projects

1. Health Assessment of Persian Gulf War Veterans From Iowa: Follow-up on Asthma (0920-0425)—Revision—

National Center for Environmental Health (NCEH). The purpose of this proposed study is to collect additional data to validate health outcomes reported by participants in the Health Assessment of Persian Gulf War Veterans From Iowa. The original data collection consisted of a telephone survey of 3,695 military personnel who

served during the time of the Persian Gulf War and listed Iowa as their home of residence. Data will be collected from subjects who participated in the telephone survey to validate the self-report of asthma. Lung function assessment, tests of airways hyperactivity, and standard respiratory health questionnaires will be

administered. Review of medical records, standard physical examination, and laboratory evaluation will be conducted to validate multi systemic conditions, including chronic fatigue syndrome and fibromyalgia. The total annual burden hours are 1,394.

#### Advisory Committee for Energy-Related Epidemiologic Research: Conference Call Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC) announces the following conference call meeting.

*Name:* Advisory Committee for Energy-Related Epidemiologic Research (ACERER).

*Time and Date:* 4 p.m.-5 p.m. EDT, June 28, 1999.

*Place:* The conference call will originate from the National Center for Environmental Health (NCEH), CDC, in Atlanta, Georgia. Please see "Supplementary Information" for details on accessing the conference call.

*Status:* Open to the public, limited only by the availability of telephone ports.

*Purpose:* This committee is charged with providing advice and recommendations to the Secretary, Health and Human Services (HHS); the Assistant Secretary for Health, HHS; the Director, CDC; and the Administrator, Agency for Toxic Substances and Disease Registry, on establishment of a

research agenda and the conduct of a research program pertaining to energy-related analytic epidemiologic studies.

*Background:* ACERER's history began with a 1991 Memorandum of Understanding (MOU), which transferred epidemiologic studies from the Department of Energy (DOE) to HHS. Two related advisory committees were created: the Environmental Safety and Health Advisory Committee at DOE, which was later terminated, and the ACERER at HHS. Upon completion of the transferred studies, funding was available to expand the research program. In 1996, the MOU's scope was broadened to address general public health issues rather than the initial focus on analytic epidemiologic research.

*Matters to be Discussed:* The conference call agenda is to consolidate ACERER recommended revisions to the current (MOU) between HHS and DOE.

Agenda items are subject to change as priorities dictate.

*Supplementary Information:* This conference call is scheduled to begin at 4 p.m., EDT. To participate in the conference call, please dial 1-888-422-7105 and enter conference code 690104. You will then be automatically connected to the call.

This notice is being published less than 15 days prior to the meeting due to the difficulty of coordinating the attendance of members because of conflicting schedules.

*Contact Person for More Information:* Michael J. Sage, Executive Secretary, ACERER, and Deputy Director, Division of Environmental Hazards and Health Effects, NCEH, CDC, 4770 Buford Highway, NE, (F-28), Atlanta, Georgia 30341-3724, telephone 770/488-7040, fax 770/488-7044.

The Director, Management Analysis and Services Office has been delegated the authority to sign Federal Register notices pertaining to announcements of meetings and other committee management activities for both the CDC and ATSDR.

Dated: June 7, 1999.

### Administration for Children and Families

#### Submission of OMB Review; Comment Request

*Title:* National Survey of Child and Adolescent Well-Being (NSCAW).

*OMB No.:* New.

*Description:* Title V, Section 429A, in the amendments to Title IV-B of the Social Security Act authorizes the Secretary of Health and Human Services to conduct a national random sample study of child welfare. The NSCAW fulfills the intent of that legislation, and responds to a growing need for better understanding of the child welfare system and the children and families who come into contact with it. The survey will collect data through interviews and assessments with a national sample of 6,700 children along with their parents, caregivers (such as foster parents), teachers, and caseworkers and other agency personnel to assess the characteristics of children and families who come into contact with the child welfare system, the services they need and receive, and the
