## DEPARTMENT OF LABOR

### Employment and Training Administration

#### Proposed Information Collection Request Submitted for Public Comment and Recommendations; Unemployment Insurance Benefit Accuracy Measurement Program

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format; reporting burden (time and financial resources) is minimized; collection instruments are clearly understood; and the impact of collection requirements on respondents can be properly assessed. This notice by the Employment and Training Administration is to solicit comments concerning the proposed extension of the collection of the Unemployment Insurance Benefit Accuracy Measurement program data (OMB control number 1205-0245) now authorized through 9/30/99. A copy of the proposed changes to the information collection Handbook (ETA Handbook 395) can be obtained by contacting the employee listed below in the contact section of this notice.

**DATES:** Written comments must be submitted on or before August 13, 1999.

**ADDRESSES:** Comments may be submitted to: Grace A. Kilbane, Director, Unemployment Insurance Service, Employment and Training Administration, U.S. Department of Labor, Room S-4231, 200 Constitution Avenue, N.W., Washington, DC 20210, 202-219-7831, ext. 167 (this is not a toll-free number); FAX, 202-219-8506; Internet: <gkilbane@doleta.gov>.

**FOR FURTHER INFORMATION CONTACT:** William N. Coyne, Unemployment Insurance Service, Employment and Training Administration, U.S. Department of Labor, Room S-4522, 200 Constitution Avenue, N.W., Washington, DC 20210, 202-219-5223, ext. 142 (this is not a toll-free number); FAX, 202-219-8506; Internet: <wcoyne@doleta.gov>.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

Since 1987, all State Employment Security Agencies (SESAs) except in the U.S. Virgin Islands have been required by regulation at 20 CFR Part 602 to operate Benefit Accuracy Measurement (BAM) programs to assess the accuracy of their Unemployment Insurance (UI) benefit payments. The Department's statutory authority for those regulations is found at Sections 303(a)(1), 303(a)(6), and 303(b) of the Social Security Act. The BAM programs operate as follows: each State draws a weekly sample of payments made for intrastate claims made in the State UI, Unemployment Compensation for Federal Employees, and Unemployment Compensation for Ex-Service Members programs. States are required to draw minimum annual samples. The ten States with the smallest claims loads must draw at least 360 payments; all other States must draw at least 480, although several voluntarily draw longer samples. In calendar years 1998, annual samples averaged slightly over 500 cases per State, and ranged from 360 to 1730. A specially trained staff of State investigators reviews agency records and contacts the claimant, employers, and third parties to verify all the information pertinent to the benefit amount for the sampled week. Although contacts originally had to be made in person, since July 1993, investigators have been able to use a mix of in-person, mail, and telephone/fax contacts to verify information. Using the verified information, they determined what the benefit payment should have been to accord fully with State law and policy. Any differences between the actual and reconstructed payment are underpayment or overpayment errors. States code the results of each case

investigated to a database on a computer provided by the Department of Labor. Data on each case include the type and causes of, and parties responsible for, any error, and a variety of demographic, labor market, and UI program information considered critical to developing program improvements and useful to the States and the Department for other analytical purposes. The States and the Department of Labor use BAM information to estimate the extent of mispayments, to monitor program quality, guide possible future program improvements, inform system stakeholders, and perform various policy analyses. Because of the extent of the BAM data record and its representatives of the population of payments, the Department uses the data extensively to produce information on State program operations (e.g., how many claims are filed electronically, how many claimants receive eligibility reviews) and characteristics of the claimant population. It is an invaluable resource for producing measures such as the percent of wages which UI benefits replace for those actually receiving a benefit. The program costs approximately \$22 million each year to operate.

The typical investigation requires about 7.5 hours per case and in total the allocated 23,760 cases are estimated to impose a paperwork burden of 75,319 hours. The program is operated under OMB control number 1205-0245; approval under this number expires 9/30/99.

##### II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

**III. Current Actions**

This is a request for OMB approval (under the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)) to extend an existing collection of information previously approved and assigned OMB Control No. 1205-0245. Burden hours would remain the same at 75,319.

*Type of Review:* Extension.

*Agency:* Employment and Training Administration.

*Title:* Unemployment Insurance Benefit Accuracy Measurement Program.

*OMB Number:* 1205-0245.

*Frequency:* Weekly.

*Recordkeeping:* States are required to follow their State laws regarding public record retention in retaining BAM records.

*Affected Public:* Individuals; businesses; other for-profit/not-for-profit institutions; farms; Federal, State, Local, or Tribal Governments.

*Number of Respondents:* 52.

*Estimated Time Per Response:* 3.17 hours.
