2. Provided, that the title shall revert to the United States upon a finding, after notice and opportunity for a hearing, that the patentee has not substantially developed the land in accordance with the approved plan of development on or before the date five years after the date of conveyance. No portion of the land shall under any circumstances revert to the United States if any such portion has been used for solid waste disposal or for any other purpose which may result in the disposal, placement, or release of any hazardous substance;

3. If, at any time, the patentee transfers to another party ownership of any portion of the land not used for the purpose specified in the application and approved plan of development, the patentee shall pay the Bureau of Land Management the fair market value, as determined by the authorized officer, of the transferred portion as of the date of transfer, including the value of any improvements thereon;

4. The above described land is to be used as a solid waste disposal site by Nye County, Nevada. Upon closure, the site may contain small quantities of commercial and household hazardous waste as determined in the Resource Conservation and Recovery Act of 1976, as amended (42 U.S.C. 6901), and defined in 40 CFR 261.4 and 261.5. Although there is no indication these materials pose any significant risk to human health or the environment, future land uses should be limited to those which do not penetrate the liner or final cover of the site unless excavation is conducted subject to applicable State and Federal requirements; and will be subject to valid existing rights.

An environmental assessment and other detailed information concerning this action is available for review at the office of the Bureau of Land Management, Tonopah Field Station,

1553 South Main Street, Tonopah, Nevada.

Upon publication of this notice in the **Federal Register**, the above described land will be segregated from all other forms of appropriation under the public land laws, including the general mining laws, except for conveyance under the Recreation and Public Purposes Act and leasing under the mineral leasing laws. For a period of 45 days from the date of publication of this notice in the **Federal Register**, interested parties may submit comments regarding the proposed conveyance or classification of the lands to the Acting Assistant Field Manager, Tonopah Field Station, P.O. Box 911, Tonopah, Nevada 89049.

Classification Comments

Interested parties may submit comments involving the suitability of the land for a municipal solid waste transfer station. Comments on the classification are restricted to whether the land is physically suited for the proposal, whether the use is consistent with local planning and zoning, or if the use is consistent with State and Federal programs.

Application Comments

Interested parties may submit comments regarding the specific use proposed in the application and plan of development, whether the BLM followed proper administrative procedures in reaching the decision, or any other factor not directly related to the suitability of the land for a municipal solid waste transfer station.

Any adverse comments will be reviewed by the State Director. In the absence of any adverse comments, the classification of the land will become effective 60 days from the date of publication in the **Federal Register**. The lands will not be conveyed until after the classification becomes effective.
