AGENCY: Federal Communications Commission.

ACTION: Notice of public meeting.

DATES: Wednesday, September 22, 1999, at 10:00 a.m.

ADDRESSES: Federal Communications Commission, 445 12th St. SW., Room TW-C305, Washington DC 20554.

FOR FURTHER INFORMATION CONTACT: Contact Stagg Newman at snewman@fcc.gov or 202-418-2478.

SUPPLEMENTARY INFORMATION: The Council was established by the Federal Communications Commission to provide a means by which a diverse array of recognized technical experts from a variety of interests such as industry, academia, government, citizens groups, etc., can provide advice to the FCC on innovation in the communications industry.

The purpose of this second meeting will be to hear and discuss the progress

of the three focus groups established by the Council to consider the issues the FCC presented to it at its April 30, 1999 meeting. These issues include: (1) The current state of the art for software defined radios, cognitive radios, and similar devices, future developments for these technologies, and ways that the availability of such technologies might affect the FCC's traditional approaches to spectrum management; and the current state of knowledge of electromagnetic noise levels and the effects of such noise on the reliability of existing and future communications systems; (2) the current technical trends in telecommunications services, changes that might decrease, rather than increase, the accessibility of telecommunications services by persons with disabilities and ways the FCC might best communicate to designers of emerging telecommunications network architectures, the requirements for accessibility; and (3) the telecommunications common carrier network interconnection scenarios that are likely to develop, including the technical aspects of cross network (i.e., end-to-end) interconnection, quality of service, network management, reliability, and operations issues, as well as the deployment of new technologies such as dense wave division multiplexing and high speed packet/cell switching. The Council may also consider such other issues as come before the Council at that time.

Members of the general public may attend the meeting. The Federal Communications Commission will attempt to accommodate as many persons as possible. However, admittance will be limited to the seating available. There will be no public oral participation, but the public may submit written comments to Stagg Newman, the Council's Designated Federal Officer, before the meeting.
