Office of Surface Mining Reclamation and Enforcement

Notice of Proposed Information Collection

AGENCY: Office of Surface Mining Reclamation and Enforcement.

ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the Office of Surface Mining Reclamation and Enforcement (OSM) is announcing that the information collection request for 30 CFR Part 778, Permit Applications—Minimum Requirements for Legal, Financial, Compliance, and Related Information, has been forwarded to the Office of Management and Budget (OMB) for review and reauthorization. This information collection was previously approved and assigned clearance number 1029-0034. This notice describes the nature of the information collection and the expected burden and cost.

DATES: OMB has up to 60 days to approved or disapprove the information collection but may respond after 30 days. Therefore, public comments should be submitted to OMB by July 19, 1999, in order to be assured of consideration.

FOR FURTHER INFORMATION CONTACT: To request a copy of the information collection request, explanatory information and related form, contact John A. Trelease at (202) 208-2783, or electronically to jtreleas@osmre.gov.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget (OMB) regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). OSM has submitted a request to OMB to renew its approval of the collection of information for 30 CFR Part 778, Permit Applications—Minimum Requirements for Legal, Financial, Compliance, and Related Information. OSM is requesting a 3-year term of approval for this information collection activity.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection of information is listed in 30 CFR Part 778, which is 1029-0034.

As required under 5 CFR 1320.8(d), a **Federal Register** notice soliciting comments on the collection of information was published on January 13, 1999 (64 FR 2231). This notice gave the public 60 days in which to comment on the need for the collection of information, the accuracy of the burden estimate, ways to enhance the information collection, and ways to minimize the burden of respondents.

OSM received one comment from an industry group. Although afforded the opportunity, this commenter did not provide any substantive suggestions regarding the need for the collection, accuracy of the estimated burden, or methods to improve the collection. However, the commenter did state that OMB should disapprove the information collection request. OSM published an Interim Final rule on April 21, 1997 (62 FR 19540), which altered regulatory language at 30 CFR Part 778. The commenter stated that, since OSM did not prepare an information collection package with a notice and comment period "OMB should disapprove the ICs [information collections] contained in the IFR (interim final rule), until such time as OSM publishes the ICs in the **Federal Register** for public comment, as required by the Paperwork Reduction Act (PRA) and OMB regulations."

When it promulgated the IFR on April 21, 1997, OSM explained that the IFR "does not contain collections of information which require approval by [OMB] under [the PRA]. OMB has previously approved the collection activities and assigned clearance numbers. * * *" 62 FR 19450, 19457, 19459 (April 21, 1997). OSM based this statement on the good faith belief that, for PRA purposes, the collections of information contained in the IFR do not represent "material or substantive" modifications to the currently approved collections of information which were associated with the prior ownership and control rules, and therefore, did not require notice and comment from the public, nor OMB approval. (Importantly, the IFR impose no new information requirements on permit applicant's rather, the IFR actually pose less of a burden to applicants, as they require submission of slightly less, though largely the same, information as the prior permit information rule. Indeed, *all* of the information called for in Part
