SUPPLEMENTARY INFORMATION:

I. Introduction

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be amended to delete one or more uses. The Act further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

II. Intent to Delete Uses

This notice announces receipt by the Agency of applications from registrants to delete uses in the pesticide registrations listed in the following Table 1. These registrations are listed by registration number, product names, active ingredients, and the specific uses deleted. Users of these products who desire continued use on crops or sites being deleted should contact the applicable registrant before December 20, 1999 to discuss withdrawal of the applications for amendment. This 180-day period will also permit interested members of the public to intercede with registrants prior to the Agency approval of the deletion. (Note: Registration number(s) preceded by * indicate a 30-day comment period. ** indicate a 90-day comment period)

Pesticides; Pesticide Registration Proposal for Isomeric Active Ingredients; Extension of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: On April 28, 1999 EPA issued a **Federal Register** notice (64 FR 22863)

(FRL-6055-1) soliciting comments on how the Agency should handle the registration of pesticide active ingredients (AI's) that are composed of chemical isomers. In particular the Agency intended to clarify its approach on determining whether a particular isomeric pesticide is a new active ingredient or not. The comment period for this notice was scheduled to end on June 28, 1999. In response to several requests, EPA has decided to extend the comment period 30 days.

DATES: Written comments, identified by the docket control number "OPP-00607," must be received on or before July 28, 1999.

ADDRESSES: Comments may be submitted by mail, electronically, or in person. Please follow the detailed instructions for each method as provided in Unit IV. of the "SUPPLEMENTARY INFORMATION" section of this notice.

FOR FURTHER INFORMATION CONTACT: Alan Dixon, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, Telephone: 703-305-7237, Fax: 703-305-6920, e-mail: dixon.alan@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Does This Notice Apply to Me?

You may be potentially affected by this notice if you are applying for a

registration or amended registration of a pesticide product that contains isomeric active ingredients and in particular a product purified for one or more (usually more chemically active) isomers. If you have any questions regarding the applicability of this action to a particular entity, consult the technical person listed in the "FOR FURTHER INFORMATION CONTACT" section.

II. Why is EPA Issuing This Notice?

The Office of Pesticide Program (OPP) is soliciting comments on how the Agency should handle the registration of pesticide active ingredients that are composed of chemical isomers. In particular, OPP is interested in learning the various opinions on the question of whether an AI originally registered at a particular proportion of isomers should be subsequently registered as a new AI when purified for one or more (usually more chemically active) isomers.

In the past the Agency has treated some purified isomeric compounds as new formulations and some purified isomeric compounds as new AI's. Examples of purified isomeric compounds treated as new formulations are: Fluzifop butyl and fluzifop-p-butyl, fenoxaprop-ethyl and fenoxaprop-p-ethyl, 2,4-DP and 2,4-DP-p, and MCPP
