

submit further proposals to the Commission to split other stock indexes.

In the previous cases, the Exchange handled each of the stock index splits in a similar manner, splitting an index two for one by doubling the index divisor, issuing one additional contract for each outstanding index option contract, and dividing the strike price in half for each series. The Exchange issued an informational circular to the membership with details concerning the index split and the doubling of position and exercise limits until the expiration of the furthest non-LEAP option contract. Position and exercise limits for each index reverted to their then applicable level.

To permit the Exchange to split broad-based and narrow-based stock indexes without submitting a proposed rule change for review by the Commission, the Exchange proposes to add to its trading rules criteria regarding splitting an index.<sup>7</sup> Specifically, the Exchange proposes to add Commentary .03 Exchange Rule 901C to permit various indexes to be split from time to time subsequent to the issuance of an Informational Circular to the Exchange's membership. Position and exercise limits that would be increased to accommodate any outstanding index option positions would revert, following the expiration of the furthest non-LEAP option contract, to their then applicable limit.

The Exchange believes that the proposal is appropriate because its procedures for handling such stock splits are well established and have been consistently applied with prior notice given to Exchange members. Further, the Exchange has experienced no difficulty in, and has not received comments in opposition to, effecting such splits. The Exchange also believes that investors are readily familiar with periodic common stock splits, and adjustments to options overlying such stocks are handled in much the same way as index splits and do not require Commission review or approval. Lastly, the Exchange believes that the proposal raises no new or novel regulatory issues for the Commission, given its prior review and approval of various stock index splits in the past.

<sup>7</sup> The Commission noted in its release adopting new Rule 19b-4(e), 17 CFR 240.19b-4(e), that if the trading rules, procedures and listing standards for the product class include criteria regarding splitting an index, such changes would be permitted without being considered a material change to the derivative securities product and without requiring the filing of a proposed rule change pursuant to Section 19(b) of the Act. See Securities Exchange Act Release No. 40761 (December 8, 1998), 63 FR 70952 (December 22, 1998).

## 2. Statutory Basis

The proposed rule change is consistent with Section 6(b) of the Act<sup>8</sup> in general and furthers the objectives of Section 6(b)(5)<sup>9</sup> in particular in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and a national market.

### *B. Self-Regulatory Organization's Statement on Burden on Competition*

The Exchange does not believe that the proposed rule change will impose any burden on competition.

### *C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others*

No written comments were solicited or received with respect to the proposed rule change.

## III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action
