

2. Site 7a is approved for a period ending May 31, 2002;

3. Authority for each of Sites 7b and 7c shall be subject to a sunset provision that terminates the authority for the site on May 31, 2004, unless the site is activated pursuant to 19 CFR Part 146 of the U.S. Customs Service regulations;

4. Sites 7d, 7e, 7f, 7g and 7h are not approved; and,

5. The overall zone project is subject to the Board's standard 2,000-acre activation limit.

Signed at Washington, DC, this 17th day of June, 1999.

Robert S. LaRussa,

Assistant Secretary of Commerce for Import Administration, Alternate Chairman, Foreign-Trade Zones Board.

Attest:

Dennis Puccinelli,

Acting Executive Secretary.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 31-99]

Foreign-Trade Zone 149—Freeport, Texas; Application for Foreign-Trade Subzone Status; Dow Chemical Company (Petrochemical Complex), Brazoria County, Texas

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Brazos River Harbor Navigation District, grantee of FTZ 149, requesting special-purpose subzone status for the petrochemical complex of Dow Chemical Company (Dow), located in Brazoria County, Texas. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on June 15, 1999.

The Dow petrochemical complex (8,555 acres, 5,300 employees) consists of five sites in Brazoria County, Texas: *Site 1:* Plant A petrochemical manufacturing facility and marine terminal (1,571 acres) located adjacent to Port Freeport at FM 1495; *Site 2:* Plant B petrochemical manufacturing facility (3,077 acres) located at State Hwy. 288-B and State Hwy. 332, north of the Brazos River; *Site 3:* Oyster Creek petrochemical manufacturing facility (825 acres) located at the intersection of State Hwy. 332 and Route FM 523; *Site 4:* Oyster Creek expansion site (904 acres) located adjacent to Site 3 south of the intersection of State Hwy. 332 and east of Route FM 523; and *Site 5:* Stratton Ridge storage facility (13 underground caverns with 15.3 billion-pound storage capacity on 2,178 acres) located south of Route FM 523 and intersected by County Road 226. The olefins plants (5,300 employees) produce a variety of petrochemical feedstocks and fuel products, including ethylene (3.3 billion-lb. capacity), propylene (865 million-lb. capacity), butadiene (425 million-lb. capacity) and pyrolysis gasoline (875 million-lb. capacity), propane, benzene, and naphtha. Some 37 percent of the inputs, including fuel oil, naphtha, condensate, and natural gasoline, are sourced abroad.

Zone procedures would exempt the petrochemical complex from Customs duty payments on the foreign products used in its exports. On domestic sales, the company would be able to choose the Customs duty rates that apply to certain petrochemical feedstocks (duty-free) by admitting incoming foreign inputs (e.g. naphtha, fuel oil, and

condensates) in non-privileged foreign status. The duty rates on inputs range from 5.2¢/barrel to 10.5¢/barrel. Under the FTZ Act, certain merchandise in FTZ status is exempt from *ad valorem* inventory-type taxes. The application indicates that the savings from zone procedures would help improve the refinery's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is August 24, 1999. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to September 8, 1999).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

U.S. Department of Commerce, Export Assistance Center, 500 Dallas, Suite 1160, Houston, Texas 77002
Office of the Executive Secretary, Foreign-Trade Zones Board, Room 3716, U.S. Department of Commerce, 14th & Pennsylvania Avenue, NW, Washington, DC 20230

Dated: June 17, 1999.

Dennis Puccinelli,

Acting Executive Secretary.

International Trade Administration

Industrial Phosphoric Acid from Israel (C-508-605) and Industrial Phosphoric Acid From Belgium (A-423-602): Extension of Time Limit for Final Results of Five-Year Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of extension of time limit for final results of five-year (“sunset”) reviews.

SUMMARY: The Department of Commerce (“the Department”) is extending the time limit for the final results of the sunset reviews on the antidumping duty order on industrial phosphoric acid from Belgium and the countervailing duty order on industrial phosphoric acid from Israel. Based on adequate

responses from domestic interested parties and respondent interested parties, the Department is conducting full sunset reviews to determine whether revocation of the orders would be likely to lead to continuation or recurrence of dumping or a countervailable subsidy. As a result of this extension, the Department intends to issue its preliminary results not later than September 17, 1999.

EFFECTIVE DATE: June 25, 1999.

FOR FURTHER INFORMATION CONTACT:

Scott E. Smith, Martha V. Douthit or Melissa G. Skinner, Import Administration, International Trade Administration, U.S. Department of Commerce, Pennsylvania Avenue and 14th Street, NW, Washington, DC 20230; telephone: (202) 482-6397, (202) 482-3207 or (202) 482-1560 respectively.

Extension of Final Results

The Department has determined that the sunset reviews of the antidumping duty order on industrial phosphoric acid from Belgium and the countervailing duty order on industrial phosphoric acid from Israel are extraordinarily complicated. In accordance with section 751(c)(5)(C)(v) of the Tariff Act of 1930, as amended ("the Act"), the Department may treat a review as extraordinarily complicated if it is a review of a transition order (*i.e.*, an order in effect on January 1, 1995). See section 751(c)(6)(C) of the Act. The Department is extending the time limit for completion of the preliminary results of these reviews until not later than September 17, 1999, in accordance with section 751(c)(5)(B) of the Act. The final results of these reviews will, therefore, be due not later than January 25, 2000.

Dated: June 21, 1999.

Richard W. Moreland,

Acting Assistant Secretary for Import Administration.

[A-201-805]

Circular Welded Non-Alloy Steel Pipe and Tube From Mexico: Preliminary Results of Antidumping Duty Administrative Reviews; and Partial Revocation

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of preliminary results of antidumping duty administrative review and partial revocation.

SUMMARY: In response to a request by one respondent, the Department of Commerce (the Department) is conducting two administrative reviews of the antidumping duty order on circular welded non-alloy steel pipe and tube from Mexico (A-201-805). These reviews cover one manufacturer/exporter of the subject merchandise to the United States during two periods of review (POR): April 28, 1992, through October 31, 1993, (the 92/93 POR) and November 1, 1993, through October 31, 1994 (the 93/94 POR).

We have preliminarily determined that sales have been made below the foreign market value (FMV) for the first period of review (POR). If these preliminary results are adopted in our final results of administrative reviews, we will instruct U.S. Customs to assess antidumping duties based upon the difference between the United States price (USP) and the FMV.

Interested parties are invited to comment on these preliminary results. Parties who submit argument in this proceeding are requested to submit with the argument: (1) A statement of the issue; and (2) a brief summary of the argument.

EFFECTIVE DATES: June 25, 1999.

FOR FURTHER INFORMATION CONTACT: John Drury, Nancy Decker or Linda Ludwig, Enforcement Group III—Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Room 7866, Washington, DC 20230; telephone (202) 482-0195 (Drury), (202) 482-0196 (Decker), or (202) 482-3833 (Ludwig).

SUPPLEMENTARY INFORMATION:

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute and to the Department's regulations are references to the provisions as they existed on December 31, 1994.

Background

The Department published an antidumping duty order on circular welded non-alloy steel pipe and tube from Mexico on November 2, 1992 (57 FR 49453). The Department published a notice of "Opportunity to Request an Administrative Review" of the antidumping duty order for the 92/93 POR on November 3, 1993 (58 FR 58682). On November 19, 1993, respondent Hylsa S.A. de C.V. ("Hylsa") requested that the Department conduct an administrative review of the

antidumping duty order on circular welded non-alloy steel pipe and tube from Mexico. On November 30, 1993, respondent Tuberia Nacional S.A. de C.V. ("TUNA") requested that the Department conduct an administrative review of this order. We initiated this review on January 18, 1994. See 59 FR 2593 (January 18, 1994).

The Department published a notice of "Opportunity to Request an Administrative Review" of the antidumping duty order for the 93/94 POR on November 10, 1994 (59 FR 56034). On November 29, 1994, respondent Hylsa S.A. de C.V. ("Hylsa") requested that the Department conduct an administrative review of the antidumping duty order on circular welded non-alloy steel pipe and tube from Mexico. On November 30, 1994, respondent Western American Manufacturing, Inc. ("Western American") requested that the Department conduct an administrative review of this order. We initiated this review on December 15, 1994. See 59 FR 64650 (December 15, 1994).

The Department is conducting these administrative reviews in accordance with section 751 of the Tariff Act of 1930 ("the Act").

Partial Termination of Review

On November 30, 1995, TUNA withdrew its request for administrative review for the 92/93 POR, pursuant to 19 CFR 353.22(a)(5). Ordinarily, parties have 90 days from the date of publication of notice of initiation within which to withdraw a request for review. In this case, the record indicates that petitioners have no objection to the withdrawal and in fact had previously requested that the Department terminate the review of TUNA (See Letter to Secretary of Commerce from R. Alan Luberdá, dated May 11, 1994). In addition, the review of TUNA has not progressed substantially and there would be no undue burden on the parties or the Department as a result of said withdrawal. Therefore, the Department has determined that it would be reasonable to grant the withdrawal at this time. In accordance with section 353.22(a)(5) of the Department's regulations, the Department has terminated the 92/93 administrative review insofar as it regards TUNA.

On March 14, 1995, Western American withdrew its request for administrative review for the 93/94 POR, pursuant to 19 CFR 353.22(a)(5). Ordinarily, parties have 90 days from the date of publication of notice of initiation within which to withdraw a request for review. In this case, the
