POSTAL SERVICE

Privacy Act of 1974, System of Records

AGENCY: Postal Service.

ACTION: Notice of new system of records.

SUMMARY: The purpose of this document is to publish notice of a new Privacy Act system of records, USPS 210.040, Contractor Records—Supplier and Contractor Records. The new system contains information about individuals and small businesses who have expressed an interest in or have entered into contracts with the Postal Service.

DATES: Any interested party may submit written comments on the proposed new system of records. This proposal will become effective without further notice on August 11, 1999, unless comments received on or before that date result in a contrary determination.

ADDRESSES: Written comments on this proposal should be mailed or delivered to: Administration and FOIA, United States Postal Service, 475 L'Enfant Plaza SW RM 8141, Washington, DC 20260–5202. Copies of all written comments will be available at the above address for public inspection and photocopying between 8 a.m. and 4:45 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT:
Betty Sheriff (202) 268–2608.

SUPPLEMENTARY INFORMATION: The Postal Service has wide-ranging needs for goods and services resulting in contracts not only with large companies, but also with individuals and independently owned and operated businesses. The independently owned and operated businesses provide painting, lockbox installation, building repair, contract postal unit services, transportation, and a myriad of other goods and services.

In recent years, the Postal Service has increased its commitment to providing

diverse suppliers, such as small businesses, with open access to contract opportunities. Most resulting supplier information collected is not covered by the Privacy Act. To the extent the Postal Service collects information about individuals and small business owners through open solicitations or issuance of contracts, it views that information as pertaining to the individual in an entrepreneurial, as opposed to personal, capacity. However, the Postal Service recognizes that some information, such as an address or a social security number, could be identifiable with both an individual and a business. For that reason, this system of records is established to cover such information.

Pursuant to 5 U.S.C. 552a(e)(11), interested persons are invited to submit written data, views, or arguments on this proposal. A report of the following proposed system has been sent to Congress and to the Office of Management and Budget for their evaluation.
