The proposed modifications of certain commercial routes may require airspace changes in the GNCN SFRA that are contained in a notice of proposed rulemaking being published concurrently in this **Federal Register**. The proposed airspace modification and the planned modification to the route structure support the National Park Service mandate to provide for the substantial restoration of the natural quiet and experience of the park.

Commenters must identify that they are commenting on the proposed commercial routes for the GCNP SFRA. All comments received on or before the end of the comment period will be considered by the FAA before finalizing the commercial routes. Late filed comments will be considered to the extent practicable.

Discussion

The FAA, in consultation with the National Park Service (NPS), proposes to restore and modify certain commercial routes in the GCNP SFRA. The proposed modified routes were developed based on airspace configurations, safety considerations, the goal of substantial restoration of natural quiet in the GCNP, economic considerations, consultation with Native American tribes, and comments received in response to previous route proposals. The FAA, in consultation with the NPS, also proposes to modify the existing airspace in the SFRA to accommodate these proposed route changes in a companion notice of proposed rulemaking published elsewhere in this **Federal Register**.

In developing the proposed modified routes for GCNP, the FAA has been consulting with Native American tribes, on a government-to-government basis, as required by the Presidential Memorandum on Government-to-Government Consultation with Native American Tribal Governments to assess potential effects on tribal trust resources and to assure that tribal government rights and concerns are considered in the decisionmaking process. The FAA has also been consulting with these tribes pursuant to the American Indian Religious Freedom Act and the Religious Freedom Restoration Act concerning potential effects of the proposed routes on sacred sites. In addition, under Section 106 of the National Historic Preservation Act the FAA, has been consulting with these
