

129 State Plan submitted by the Massachusetts Department of Environmental Protection (DEP) on January 11, 1999. This State Plan is for carrying out and enforcing provisions that are at least as protective as the Emissions Guidelines (EG) applicable to existing Municipal Waste Combustors (MWCs) units with capacity to combust more than 250 tons/day of municipal solid waste (MSW). See 40 CFR part 60, subpart Cb.

The Massachusetts DEP submitted the Plan to satisfy certain Federal Clean Air Act requirements. In the Final Rules section of the **Federal Register**, EPA is approving the Massachusetts State Plan submittal as a direct final rule without a prior proposal. EPA is doing this because the Agency views this action as a noncontroversial submittal and anticipates that it will not receive any significant, material, and adverse comments. A detailed rationale for the approval is set forth in the direct final rule and incorporated by reference herein. If EPA does not receive any significant, material, and adverse comments to this proposed rule, then the approval will become final without further proceedings. If EPA receives adverse comments, the direct final rule will be withdrawn and EPA will address all public comments received in a subsequent final rule based on this proposed rule. EPA will not begin a second comment period.

DATES: EPA must receive comments on this proposed rule in writing by August 13, 1999.

ADDRESSES: You should address your written comments to: Mr. Gerald Potamis, Chief, Air Permits Unit, Office of Ecosystem Protection (CAP), U.S. EPA, One Congress Street, Suite 1100, Boston, Massachusetts 02114-2023.

[MM Docket No. 99-240, RM-9503]

Radio Broadcasting Services; Albemarle and Indian Trail, NC

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission requests comments on a petition filed by Susquehanna Radio Corp. seeking the reallocation of Channel 265A from Albemarle, NC, to Indian Trail, NC, as the community's first local aural service, and the modification of Station WABZ's license accordingly. Channel 265A can be allotted to Indian Trail, with a site restriction of 10 kilometers (6.2 miles) northeast, at coordinates 35-06-53 NL; 80-33-44 WL, to accommodate petitioner's desired transmitter site. The allotment requires a waiver of the Commission's minimum distance separation requirements as the allotment would be short-spaced by Station WKXU, Channel 266C, Burlington, NC, by 28.1 kilometers. Station WABZ is a pre-1964 short-spaced station and parties are requested to comment on the appropriateness of permitting grandfathered short-spaced stations to change their community of license where short-spacings would still exist.
