II. Background

EPA launched a voluntary Consumer Labeling Initiative (CLI) in 1996 (61 FR 12011, March 22, 1996) (FRL-4956-8) to explore ideas from consumers, industry, and health and safety professionals on ways to make the environmental, safe use, and health information on household product labels easier for consumers to find, read, understand, and use. The CLI was designed as a pilot project addressing indoor insecticides, outdoor pesticides, and household hard surface cleaners. The first stage of the CLI concluded with publication of the CLI Phase I Report (EPA-700-R-96-001) in September 1996. Phase II of the project, which began in 1997 and ran through early 1999, included qualitative research with consumers conducted by EPA, as well as quantitative research undertaken voluntarily by the Agency's industry and trade association partners. The raw data from these surveys were placed in the CLI Administrative Record (AR-139) for public inspection and comment (63 FR 57298, October 27, 1998) (FRL-6040-3).

The draft CLI Phase II Report contains the detailed findings, conclusions, and recommendations developed from the survey information and other ongoing CLI activities. Comments received on or before July 29, 1999, will be

incorporated in the final version of the CLI Phase II Report, which is expected to be published in the fall of 1999. The draft Phase II Report can be downloaded in PDF file format at: <http://www.abtdemo.com/cli>. The draft Report is approximately 165 pages, with Appendices of approximately 200 pages. PDF files require the use of the Adobe Acrobat Reader, which can be downloaded without charge at: <http://www.adobe.com>. The draft Phase II Report can also be reviewed in hard copy in the CLI Administrative Record (AR-139).

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability of a final report.

SUMMARY: This notice announces the availability of a final report of a peer review and risk assessment workshop on nonindigenous pathogenic shrimp viruses, which was held January 7-8, 1998. Expert conclusions and recommendations contained in the report have undergone an independent scientific review. The results of this independent review and the draft final report were used as the basis for a risk management workshop on shrimp viruses held on July 28-29, 1998, in New Orleans [see **Federal Register** 63(130)36895-36896 (July 8, 1998)].
