

time is right for hospices to implement a strong voluntary health care compliance program. As stated throughout this guidance, compliance is a dynamic process that helps to ensure that hospices and other health care providers are better able to fulfill their commitment to ethical behavior, as well as meet the changes and challenges being imposed upon them by Congress and private insurers. Ultimately, it is OIG's hope that a voluntarily created compliance program will enable hospices to meet their goals, improve the quality of patient care, and substantially reduce fraud, waste, and abuse, as well as the cost of health care to Federal, State, and private health insurers.
