American Silicon Technologies, Rock Island, WA; Revised Determination on Reconsideration

By letter of May 5, 1999, the United States Steelworkers of America, Local #3661, requested administrative reconsideration of the Department's denial of eligibility to apply for trade adjustment assistance applicable to workers and former workers of the subject firm.

The initial investigation resulted in a negative determination issued on April 2, 1999, based on the finding that during the time period relevant to the petition investigation, customers of American Silicon Technologies did not increase reliance on imports of articles like or directly competitive with silicon produced by workers at the Rock Island plant. The denial notice was published in the **Federal Register** on April 27, 1999 (64 FR 22647).

On reconsideration, additional customer survey was conducted. New

investigation findings show that from 1997 to 1998 a major declining customer increased import purchases of silicon while decreasing purchases from the subject firm.

Sales, production and employment declined during the relevant period.

Conclusion

After careful review of the additional facts obtained on reopening, I conclude that increased imports of articles like or directly competitive with silicon contributed importantly to the decline in sales or production and to the total or partial separation of workers of American Silicon Technologies, Rock Island, Washington. In accordance with the provisions of the Act, I make the following certification:

All workers of American Silicon Technologies, Rock Island, Washington who became totally or partially separated from employment on or after January 6, 1998 through two years from the date of this certification are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed in Washington, DC this 8th day of July, 1999.

Grant D. Beale,

Program Manager, Office of Trade Adjustment Assistance.

Consolidated Coal Company, Humphrey #7 Mine, Osage, WV; Negative Determination on Reconsideration

On June 8, 1999, the Department issued an Affirmative Determination Regarding Application for Reconsideration for the workers and former workers of the subject firm. The notice was published in the **Federal Register** on June 23, 1999 (64 FR 33523).

The Department initially denied TAA to workers of Consolidated Coal's Humphrey #7 Mine because the "contributed importantly" group eligibility requirement of Section 222(3) of the Trade Act of 1974, as amended, was not met. Aggregate U.S. imports of bituminous coal were negligible during the relevant time period. The workers at the subject firm were engaged in employment related to the production of bituminous coal.

The petitioner asserted that increased foreign competition was a major factor

in the closing of the facility and provided additional information which warranted reconsideration of the Department's previous denial.

On reconsideration, the Department conducted a survey of the major customers of Humphrey #7 Mine and found that the customers had not increased their reliance on imports of coal; one customer reported no imports, another reported declining imports.

Conclusion

After reconsideration, I affirm the original notice of negative determination of eligibility to apply for worker adjustment assistance for workers and former workers of Consolidated Coal, Humphrey #7 Mine, Osage, West Virginia.

Signed at Washington, DC, this 6th day of July 1999.

Acting Director, Office of Trade Adjustment Assistance.

International Paper Corporation; Containerboard Division, Gardiner, Oregon; Revised Determination on Reconsideration

On May 12, 1999, the Department issued a Notice of Affirmative Determination Regarding Application for Reconsideration regarding the petition for workers of the subject firm.

The initial investigation resulted in a negative determination issued on February 8, 1999, based on the finding that during the time period relevant to the petition investigation, customers of International Paper Corporation, Containerboard Division did not increase reliance on imports of articles like or directly competitive with liner board produced at the Gardiner plant. The denial notice was published in the **Federal Register** on April 6, 1999 (64 FR 16752).

On reconsideration further customer survey was conducted. New investigation findings show that from 1997 to 1998 a major declining customer increased import purchases of liner board while decreasing purchases from the Gardiner, Oregon Plant.

Sales, production and employment declined during the relevant period.

Conclusion

After careful review of the additional facts obtained on reopening, I conclude that increased imports of articles like or directly competitive with liner board contributed importantly to the declines in sales or production and to the total or partial separation of workers of International Paper Company, Containerboard Division, Gardiner, Oregon. In accordance with the provisions of the Act, I make the following certification:

"All workers of International Paper Corporation, Containerboard Division, Gardiner, Oregon who became totally or partially separated from employment on or after November 23, 1997 through two years from the date of this certification are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."
