

analysis, the Department finds that the existence of dumping margins above *de minimis* levels and a reduction in export volumes after the issuance of the orders is highly probative of the likelihood of continuation or recurrence of dumping. A deposit rate above a *de minimis* level continues in effect for exports of the subject merchandise by all known Korean and all known Taiwanese producers/exporters. Therefore, given that dumping has continued over the life of the orders, import volumes declined significantly after the imposition of the orders, respondent parties waived participation, and absent argument and evidence to the contrary, the Department determines that dumping is likely to continue if the orders were revoked.

Magnitude of the Margin

In the *Sunset Policy Bulletin*, the Department stated that it normally will provide to the Commission the margin that was determined in the final determination in the original investigation. Further, for companies not specifically investigated or for companies that did not begin shipping until after the order was issued, the Department normally will provide a margin based on the "all others" rate from the investigation. (See section II.B.1 of the *Sunset Policy Bulletin*.) Exceptions to this policy include the use of a more recently calculated margin, where appropriate, and consideration of duty absorption determinations. (See sections II.B.2 and 3 of the *Sunset Policy Bulletin*.)

The Department, in its final determinations of sales at less than fair value, published weighted-average dumping margins for five Korean producers/exporters of stainless steel cookware (51 FR 42873, November 26, 1986, amended in 51 FR 46889, December 29, 1986) and three Taiwanese producers/exporters (51 FR 42882, November 26, 1986). Moreover, the Department published an "all others" rate in both of these determinations. We note that, to date, the Department has not issued any duty absorption findings in either of these cases.

In their substantive responses, the Committee recommended that, consistent with the *Sunset Policy Bulletin*, the Department provide to the Commission the company-specific margins from the original investigations. Moreover, regarding companies not reviewed in the original investigation, the Committee suggested that the Department report the all others rates included in the original investigations.

The Department agrees with the Committee. The Department finds the margins calculated in the original investigation are probative of the behavior of Korean and Taiwanese producers/exporters if the orders were revoked as they are the only margins which reflect their actions absent the discipline of the order. Therefore, the Department will report to the Commission the company-specific and all-others rates from the original investigations as contained in the *Final Results of Review* section of this notice.

Final Results of Review

As a result of this review, the Department finds that revocation of the antidumping orders would likely lead to continuation or recurrence of dumping at the margins listed below:

Producer/exporter	Margin (percent)
Korea:	
Bum Koo	31.23
Dae Sung	6.11
Hai Dong	12.14
Kyung Dong	8.36
Namil	0.75
All Others	8.10
Taiwan:	
Golden Lion Metal Industry Co., Ltd.	15.08
Lyi Mean Industrial Co., Ltd.	26.10
Song Far Industry Co., Ltd.	25.90
All Others	22.61

Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. This five-year ("sunset") review and notice are in accordance with sections 751(c), 752, and 777(i)(1) of the Act.
