INTERNATIONAL TRADE COMMISSION

[Investigation No. AA1921-129 (Review)]

Polychloroprene Rubber From Japan

Determination

On the basis of the record¹ developed in the subject five-year review, the United States International Trade Commission determines, pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. 1675(c)) (the Act), that revocation of the antidumping finding on melamine from Japan would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.²

Background

The Commission instituted this review on August 3, 1998 (63 FR 41282) and determined on November 5, 1998 that it would conduct a full review (63 FR 63748, November 16, 1998). Notice of the scheduling of the Commission's review and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on December 16, 1998 (63 FR 69306). The hearing was held in Washington, DC, on June 3, 1999, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determination in this investigation to the Secretary of Commerce on July 26, 1999. The views of the Commission are contained in USITC Publication 3212 (July 1999), entitled *Polychloroprene Rubber from Japan (Inv. No. AA1921-129 (Review))*.

Issued: July 27, 1999.

By order of the Commission.

INTERNATIONAL TRADE COMMISSION

[Investigations Nos. 701-TA-393-396 (Preliminary) and Investigations Nos. 731-TA-829-840 (Preliminary)]

Certain Cold-Rolled Steel Products From Argentina, Brazil, China, Indonesia, Japan, Russia, Slovakia, South Africa, Taiwan, Thailand, Turkey, and Venezuela

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission determines, pursuant to section 703(a) of the Tariff Act of 1930 (19 U.S.C. 1671b(a)), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports from Brazil of certain cold-rolled steel products, provided for in headings 7209, 7210, 7211, 7212, 7225, and 7226 of the Harmonized Tariff Schedule of the United States, that are alleged to be subsidized by the Government of Brazil. The Commission further determines, pursuant to 19 U.S.C. 1677(24)(A), that the subject imports from Indonesia, Thailand,² and Venezuela that are alleged to be subsidized are negligible and its investigations are thereby terminated pursuant to 19 U.S.C. 1671b(a)(1).³ The Commission also determines, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)), that there is a reasonable indication that an industry in the United States is materially injured by reason of such imports from Argentina, Brazil, China, Indonesia, Japan, Russia, Slovakia, South Africa, Taiwan, Thailand, Turkey, and Venezuela that are alleged to be sold in the United States at less than fair value.

Commencement of Final Phase Investigations

Pursuant to § 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling which will be published in the **Federal Register** as provided in § 207.21 of the Commission's rules upon notice from the Department of Commerce

¹ The record is defined in § 207.2(f) of the Commission's rules of practice and procedure (19 CFR 207.2(f)).

² Commissioner Koplan dissenting with respect to allegedly subsidized imports from Thailand.

³ Chairman Bragg, however, further finds that imports from Indonesia, Thailand, and Venezuela will imminently exceed the statutory negligibility threshold, and makes an affirmative threat determination with regard to such imports.

(Commerce) of affirmative preliminary determinations in these investigations under section 703(b) and section 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in the investigations under section 705(a) and section 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation.

Accordingly, effective June 2, 1999, the Commission instituted antidumping investigations Nos. 701-TA-393-396 (Preliminary) and investigations Nos. 731-TA-829-840 (Preliminary).

Notice of the institution of the Commission's investigation and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of June 9, 1999 (64 FR 31018). SUPPLEMENTARY INFORMATION:

Background

In 1998, the COPS Office announced the first round of School-Based Partnerships grantees to 155 law enforcement agencies. The COPS Office issued a second grant solicitation in early 1999, to fund additional policing agencies and their partners. Funding decisions for SBP '99 are forthcoming. Various components of this assessment will include grantees funded in 1998 while other tasks will focus on grantees funded in 1999. It is possible that some SBP grantees will receive grants in both 1998 and 1999 to problem solve on different crime and disorder problems. Applicants for the assessment should consider ways to best incorporate information from all grantees from the two years of funding and should not be limited in their proposals to the ideas and tasks included in this solicitation.

The SBP grant program is part of the COPS Office's commitment to advancing community policing through collaborative problem solving. The initiative seeks to facilitate a shift from traditional incident-driven policing to proactive problem-oriented policing that encourages community participation to keep children safe by reducing school-related violence, crime, and disorder. Rather than repeatedly responding to the same types of crimes after they have occurred, policing agencies that practice community policing and problem solving work with community members to identify persistent problems, learn more about why these problems occur, and address the underlying conditions that precipitate their occurrence.

The SBP program provides policing agencies with a unique opportunity to work with schools and community-based organizations to address persistent school-related crime problems. Grantees were required to
