## DEPARTMENT OF LABOR

### Employment and Training Administration

#### Federal-State Unemployment Compensation Program: Availability of Benefit Accuracy Measurement Program Results

**AGENCY:** Employment and Training Administration, Labor.

**ACTION:** Notice of availability of the unemployment Insurance Benefit Accuracy Measurement Program data for calendar year (CY) 1998.

**SUMMARY:** The purpose of this notice is to announce the availability of the Unemployment Insurance (UI) Benefit Accuracy Measurement (BAM) Program data for CY 1998. BAM program data are published as part of a UI PERFORMS report, which also includes data from the Benefit Timeliness and Quality and Tax Performance System programs. UI PERFORMS is the Department's management system for promoting continuous improvement in UI performance.

**DATES:** The UI PERFORMS Annual Report will be available on August 27, 1999.

**ADDRESSES:** The CY 1998 UI PERFORMS Annual Report, including State narratives, is posted on the Information Technology Support Center (ITSC) Internet site ([www.itsc.state.md.us](http://www.itsc.state.md.us)). Printed versions of the report are available through the National Technical Information Service (NTIS) (Internet: [www.ntis.gov](http://www.ntis.gov)). Orders through the NTIS may be placed by telephone (1-800-553-NTIS (6847) or 703-605-6000), fax (703-605-6900), e-mail ([orders@ntis.fedworld.gov](mailto:orders@ntis.fedworld.gov)), or mail (NTIS, 5285 Port Royal Road, Springfield, Virginia 22161). The printed version will not include State narratives. This notice contains a list of names and addresses of persons in each State who will provide additional information and clarifications regarding the individual State reports upon request.

**FOR FURTHER INFORMATION CONTACT:** Andrew Spisak, Division of

Performance Review, Data Analysis and Data Validation Team, 202-219-5223, extension 157. (This is not a toll free number.)

**SUPPLEMENTARY INFORMATION:** BAM program staff in each State's Employment Security Agency investigate weekly random samples of UI benefit payments and record information based on interviews with claimants, employers, and third parties to determine whether State law, policy, and procedure were followed correctly in processing the sampled payment.

The Department of Labor publishes results from the investigations in a digest which includes information on the 52 jurisdictions participating in the UI BAM program. Five items are reported for each State: The amount of UI benefits paid to the population of claimants, the size of the BAM samples, and the percentages of proper payments, overpayments, and underpayments in the population estimated from the BAM investigations. Ninety-five percent confidence intervals are presented for each of the three percentages as measures of the precision of the estimates. States may provide narratives to comment on or to clarify the meaning of the data.

The UI PERFORMS Annual Report also includes background information and data collection methodology for the BAM program, graphs which display the distribution of overpayment rates for all States, national analytical rates defined for several UI program characteristics, and national cause and responsibility data for overpayments and underpayments for the last five years.

Because States' laws, policies, and procedures vary considerably, the data cannot be used to draw comparisons among States.

States are not required to publish their BAM program data; however, persons wanting clarification or additional information concerning a specific State's report are encouraged to contact the individual identified in the following list.

Signed at Washington, D.C., on July 21, 1999.

## SUPPLEMENTARY INFORMATION:

## I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is correct.
