

manufacturers have agreed to sell these cleaner vehicles throughout the State for the duration of the National LEV program. This SIP revision is required as part of the agreement between States and automobile manufacturers to ensure the continuation of this program to bring clean cars throughout the country, beginning with 1999 model year vehicles. In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

#### Findings of Significant Contribution and Rulemaking on Section 126 Petitions for Purposes of Reducing Interstate Ozone Transport; Reopening of Comment Period

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule; reopening of comment period.

**SUMMARY:** The EPA is reopening the comment period for the proposed rulemaking under section 126 of the Clean Air Act (CAA) that was published on June 24, 1999 (64 FR 33962), regarding petitions submitted by eight Northeastern States for the purpose of mitigating transport of ozone. The June 24 proposal established a 45-day comment period, which ended on August 9. The EPA believes this provided an adequate opportunity to comment on the specific issues raised by the proposal. However, in response to two requests from the public, EPA is extending the comment period to August 25, 1999.

**DATES:** The EPA is reopening the comment period to end on August 25, 1999.

**ADDRESSES:** Comments may be submitted (in duplicate form if possible) to the Air and Radiation Docket and Information Center (6102), Attention: Docket No. A-97-43, U.S. Environmental Protection Agency, 401 M Street SW, room M-1500, Washington, DC 20460, telephone (202) 260-7548. Comments and data may also be submitted electronically by following the instructions under **SUPPLEMENTARY INFORMATION** of this document.

Documents relevant to this action are available for inspection at the Docket Office, at the above address, between 8:00 a.m. and 5:30 p.m., Monday through Friday, excluding legal holidays.

**FOR FURTHER INFORMATION CONTACT:** Questions concerning today's action should be addressed to Carla Oldham,

Office of Air Quality Planning and Standards, Air Quality Strategies and Standards Division, MD-15, Research Triangle Park, NC, 27711, telephone (919) 541-3347.

#### SUPPLEMENTARY INFORMATION:

##### Background on June 24, 1999 Proposal

The June 24 action proposed to amend two aspects of the final rule, issued on April 30, 1999, regarding petitions submitted by eight Northeastern States for the purpose of mitigating transport of one of the main precursors of ground-level ozone, nitrogen oxides (NOX), across State boundaries (see 64 FR 28250, May 25, 1999). The proposal was necessary to address issues rising from two recent court rulings related to the 8-hour ozone national ambient air quality standard and the NOX State implementation plan call (NOX SIP call). The EPA is not reopening the remainder of the April 30 final rule for public comment and consideration.
