

Basic class	Previously established initial 1999 quotas	Proposed revised 1999 quotas
Secobarbital .....	*1,011,000	1,155,000
Sufentanil .....	852	952
Thebaine .....	22,880,000	31,117,000

\*The aggregate production quota for secobarbital was revised from 25 grams to 1,011,000 grams in an interim notice 64 FR 29358 (June 1, 1999).

The Deputy Administrator further proposes that aggregate production quotas for all other Schedules I and II controlled substances included in Sections 1308.11 and 1308.12 of Title 21 of the Code of Federal Regulations remain at zero.

#### Comments and Y2K Issues

All interested persons are invited to submit their comments and objections in writing regarding this proposal. A person may object to or comment on the proposal relating to any of the above-mentioned substances without filing comments or objections regarding the others. If a person believes that one or more of these issues warrant a hearing, the individual should so state and summarize the reasons for this belief.

The DEA is aware of concerns regarding a potential increase in sales due to customer stockpiling for Y2K. In response to this issue, the DEA has adjusted the aggregate production quotas to include the allowable maximum of 50 percent inventory for those controlled substances manufactured for medical use. Additional Y2K concerns should be included when commenting or objecting to this proposal.

In the event that comments or objections to this proposal raise one or more issues which the Deputy Administrator finds warrant a hearing, the Deputy Administrator shall order a public hearing by notice in the **Federal Register**, summarizing the issues to be heard and setting the time for the hearing.

The Office of Management and Budget has determined that the notices of aggregate production quotas are not subject to centralized review under Executive Order 12866. This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that this matter does not have sufficient federalism implications to warrant the preparation of a Federal Assessment.

The Deputy Administrator hereby certifies that this action will have no significant impact upon small entities whose interests must be considered under the Regulatory Flexibility Act, 5

U.S.C. 601 *et seq.* The establishment of aggregate production quotas for Schedules I and II controlled substances is mandated by law and by international treaty obligations. Aggregate production quotas apply to approximately 200 DEA registered bulk and dosage form manufacturers of Schedules I and II controlled substances. The quotas are necessary to provide for the estimated medical, scientific, research and industrial needs of the United States, for export requirements and the establishment and maintenance of reserve stocks. While aggregate production quotas are of primary importance to large manufacturers, their impact upon small entities is neither negative nor beneficial. Accordingly, the Deputy Administrator has determined that this action does not require a regulatory flexibility analysis.

Dated: August 11, 1999.

**Donnie R. Marshall,**

*Deputy Administrator.*

#### Deadline Extension for the National Institute of Justice Solicitation for Forensic DNA Research and Development

**AGENCY:** Office of Justice Programs, National Institute of Justice, Justice.

**ACTION:** Notice of deadline extension.

**SUMMARY:** Announcement of the extension of the deadline for the National Institute of Justice Solicitation for Forensic DNA Research and Development.

**DATES:** The revised due date for receipt of proposals is 4 p.m. (EST), September 15, 1999. (The previous deadline was August 30, 1999 as noted in the **Federal Register** announcement at 64 FR 41138.) NIJ has extended the deadline to allow additional time for proposals to be developed.

**ADDRESSES:** National Institute of Justice, 810 Seventh Street, NW, Washington, DC 20531.

**FOR FURTHER INFORMATION CONTACT:** For a copy of the solicitation, please call NCJRS 1-800-851-3420. For general information about application procedures for solicitations, please call the U.S. Department of Justice Response Center 1-800-421-6770.

#### SUPPLEMENTARY INFORMATION:

##### Authority

This action is authorized under the Omnibus Crime Control and Safe Streets Act of 1968, sections 201-203, as amended, 42 U.S.C. 3721-23 (1994).

##### Background

The intent of this solicitation is to stimulate all areas of research or development that can enhance or increase the capacity, capability, applicability, and/or reliability of DNA for forensic uses. Proposals that build or improve upon existing technologies, methods, or approaches as well as proposals based on new or novel technologies, methods, or approaches are encouraged to meet the goal of maximizing the value of DNA evidence to the criminal justice system.

In order to most effectively and efficiently use DNA to its maximum value for the criminal justice system, the forensic DNA community, now comprised of more than 150 public and private crime laboratories, will need faster, less costly, and fundamentally reliable technical tools and innovations that can be appropriately validated, quality-controlled, and quality-assured for forensic use. Research demonstrating the reliability of existing or future methods is also encouraged. Emphasis is placed on developing methods or technologies that address the needs of databasing for CODIS application and/or methods that can be used for the analysis of crime scene samples, which are often limited in quality and quantity.

Interested organizations should call the National Criminal Justice Reference Service (NCJRS) at 1-800-851-3420 to obtain a copy of the Solicitation for Forensic DNA Research & Development

#### SUPPLEMENTARY INFORMATION:

##### Authority

This action is authorized under the Omnibus Crime Control and Safe Streets Act of 1968, sections 201-203, as amended, 42 U.S.C. 3721-23 (1994).

##### Background

The National Institute of Justice (NIJ) is expanding its Arrestee Drug Abuse Monitoring (ADAM) program by enrolling 15 new sites in Fiscal Year 2000. The ADAM system consists of 35 sites with an expected total of 75 sites by FY 2001. Under this solicitation municipalities can apply to be added to the ADAM network. Eligible municipalities have been determined based on population size, or include the

largest city in States with smaller populations. NIJ will select 15 new sites with an expectation that these municipalities will begin operating as ADAM sites during FY 2000, subject to the upcoming Congressional budget appropriations. Sites not selected in FY 2000 will continue to be eligible for enrollment in the subsequent year until the anticipated total of 75 ADAM sites has been reached. This solicitation is applicable only to the eligible municipalities who wish to apply for one of the 15 new ADAM sites to be added during FY 2000.

After new sites have been selected, NIJ will issue a separate solicitation for parties interested in receiving funds to manage and operate ADAM in the selected municipalities. Through this to-be-released solicitation, local data collection teams will compete against each other for the funding to manage data collection in the 15 new ADAM sites.

Eligible sites include Mobile, Mobile County, AL; Little Rock, Grant County, AK; Anaheim, Orange County, CA; Bakersfield, Kern County, CA; Fremont, Alameda County, CA; Fresno, Fresno County, CA; Oakland, Alameda County, CA; Riverside, Riverside County, CA; San Francisco, San Francisco County (S.
