[Docket No. CP99-241-000]

ANR Pipeline Company; Notice of Availability of the Environmental Assessment for the Proposed Wisconsin Expansion Project

August 19, 1999.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by ANR Pipeline Company (ANR) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of the proposed Wisconsin Expansion Project including:

- about 3.0 miles of 42-inch-diameter pipeline loop at its Michigan Leg South System in Kendall County, Illinois; and
- about 0.11 mile of 16-inch-diameter pipeline from the Weyauwega Compressor Station to ANR's Marinette Junction tap site on its existing 24-inch-diameter mainline in Waupaca County, Wisconsin.

In addition, ANR proposes to install the following facilities:

- two 10,000-horsepower (hp) compressor units at its existing Woodstock Compressor Station in McHenry County, Illinois;
- one 1,500-hp compressor unit at its existing Weyauwega Compressor Station in Waupaca County, Wisconsin;
- one 1,500-hp compressor unit at its existing Janesville Compressor Station in Rock County, Wisconsin;
- one pig launcher on ANR's existing right-of-way at Lisbon Road in Kendall County, and other minor related facilities.

The purpose of the proposed facilities would be to install certain additional loop pipeline and expand the capacity of its facilities in Illinois and Wisconsin to increase its transmission capacity by up to 194 million Decatherms per day of natural gas between the ANR Joliet Hub and its Wisconsin market area.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference and Files Maintenance Branch, 888 First Street, N.E., Room 2-A, Washington, DC 20426, (202) 208-1371.

Copies of the EA have been mailed to Federal, state and local agencies, public interest groups, interested individuals, newspapers, and parties to this proceeding.

Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important that we receive your comments before the date specified below. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

- Send two copies of your comments to: Secretary, Federal Energy Regulatory Commission, 888 First St., N.E., Room 1A, Washington, DC 20426;
- Label one copy of the comments for the attention of the Environmental Review and Compliance Branch, PR-11.1;
- Reference Docket No. CP99-241-000; and
- Mail your comments so that they will be received in Washington, DC on or before September 20, 1999.

Comments will be considered by the Commission but will not serve to make the commentor a party to the proceeding. Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214).

The date for filing timely motions to intervene in this proceeding has passed. Therefore, parties now seeking to file late interventions must show good cause, as required by section 385.214(b)(3), why this time limitation should be waived. Environmental issues have been viewed as good cause for late intervention. You do not need intervenor status to have your comments considered.
