## ENVIRONMENTAL PROTECTION AGENCY

### Voluntary Children's Health Chemical Testing Program, Initiation of a Stakeholder Involvement Process; Notice of Public Meetings

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** EPA will hold three public meetings to involve stakeholders in the design and development of a voluntary program to test commercial chemicals to which children may have a high likelihood of exposure. The purpose of the voluntary testing program is to obtain toxicity data needed to assess the risk of childhood exposure to commercial chemicals. At the kickoff meeting, stakeholders will have an opportunity to give their reactions, either as individuals or as representatives of organizations, to EPA's preliminary thoughts on criteria and considerations that could be used to select chemicals for testing and the test battery. Stakeholders will also have an opportunity to provide their views on new or alternative approaches that might be used in this program. EPA is also interested in obtaining stakeholder input on the key design features of a voluntary testing program that could be used to gather the needed test data. Two subsequent meetings of the Stakeholder Involvement Process will be organized around sets of invited participants which will separately discuss with EPA the different issues related to the voluntary testing program. The two subsequent meetings will also be public meetings and there will be an opportunity for public comment at the conclusion of each discussion between the invited participants and EPA. The information which is developed in the course of this process in the interest of developing a voluntary testing program may also be considered in the development of a possible test rule under section 4 of the Toxic Substances Control Act (TSCA).

**DATES:** The kickoff meeting of the Stakeholder Involvement Process will be held from 9 a.m. to 5 p.m. on September 22, 1999, and from 9 a.m. to 12 noon on September 23, 1999. This public meeting will be followed by two subsequent meetings currently scheduled for November 30–December 1, 1999, and January 19–20, 2000. These will be the dates unless a **Federal Register** document is published changing the dates or canceling the
